- Loans and leases receivable of \$4.5 billion, up 11.6% in the second quarter on an annualized basis driven by new loan and lease production of \$308.8 million; Loans and leases receivable up 11.5% year-over-year.
- Deposits of \$4.4 billion, up 4.4% in the second quarter on an annualized basis and up 3.9% year-over-year driven by growth in time deposits.
- Net interest income was \$45.1 million, up 0.4% from the prior quarter and up 4.5% year-over-year notwithstanding a net interest margin of 3.60% that declined 10 basis points from the prior quarter and 21 basis points from a year ago.
- Noninterest expense decreased 0.8% compared with prior quarter to \$29.5 million, which includes \$0.4 million of merger and integration costs.
- Asset quality remains strong with nonperforming assets at 0.30% of total assets and net charge-offs of 0.01%.
- Return on average assets was 1.17% and return on average equity was 10.81% compared with 1.16% and 10.65%, respectively, for the prior quarter and 1.19% and 10.65%, respectively, a year ago.
- Announced definitive agreement to acquire SWNB Bancorp, Inc. (“SWNB”) to expand presence in key metro markets in Texas.

LOS ANGELES, July 24, 2018 (GLOBE NEWSWIRE) -- **Hanmi Financial Corporation** (NASDAQ:HAFC) (or “**Hanmi**”), the parent company of Hanmi Bank (the “Bank”), today reported net income for the 2018 second quarter of \$15.5 million, or \$0.48 per diluted share, compared with \$14.9 million, or \$0.46 per diluted share for the 2018 first quarter and \$14.5 million, or \$0.45 per diluted share for the 2017 second quarter.

C. G. Kum, Chief Executive Officer, said, “Hanmi’s second quarter results reflect strong loan and lease production, excellent asset quality and careful expense management as we continue to operate in a highly competitive banking environment. New loan and lease production in the quarter totaled \$309 million, up nearly 26% from the prior quarter and 11% from a year ago. Importantly, asset quality remains excellent. We continue to maintain disciplined underwriting standards and we will not loosen our credit criteria in spite of increasing competition. In addition, I am pleased with our ability to prudently manage expenses and maintain noninterest expense in a tight range over the past year. However, the flattening of the yield curve coupled with strong competition has resulted in the cost of attracting deposits outpacing the growth in loan yields, which has put pressure on our net interest margin.”

Mr. Kum concluded, “To augment our organic growth, during the quarter, we announced the acquisition of SWNB Bancorp,

Inc., which will significantly expand Hanmi's presence in attractive markets throughout Texas as well as provide excess liquidity to help fund future growth. While expenses associated with the SWNB acquisition totaled \$0.4 million and reduced Hanmi's earnings per share by \$0.01 during the second quarter, integration activities are proceeding according to plan and we continue to expect the transaction to be completed in the second half of the year."

The average earning asset yield (tax equivalent) was 4.57% for the second quarter of 2018 compared with 4.53% for the first quarter of 2018. The four basis point increase was primarily due to the increase in average yield for loans and leases receivable. The cost of interest-bearing liabilities was 1.44% for the second quarter of 2018 compared with 1.25% for the first quarter of 2018. The 19 basis point increase was primarily due to an increase in higher costing time deposits and an increase in the average rate paid on overnight borrowings.

For the second quarter of 2018, the loan and lease loss provision was \$0.1 million compared with \$0.6 million for the preceding quarter reflecting the continued strong asset quality of the portfolio of loans and leases.

Second quarter noninterest income decreased 1.9% to \$5.9 million from \$6.1 million for the first quarter, primarily due to a \$0.2 million decrease in service charges on deposit accounts and a \$0.2 million decrease in servicing income. The second quarter included a small gain from the sales of securities compared with a \$0.4 million loss on sales of securities in the first quarter.

Noninterest expense has remained within a relatively tight range over the past year. During the second quarter, noninterest expense decreased 0.8% to \$29.5 million from \$29.8 million in the first quarter primarily due to a \$1.2 million decrease in salaries and employee benefits and \$0.2 million decrease in professional fees, partially offset by a \$0.6 million increase in other operating expenses. Salaries and employee benefit expenses are typically higher in the first quarter due to the seasonal impact of elevated payroll taxes and employee benefits. As a result of the decrease in noninterest expense, as well as the increase in net interest income, the efficiency ratio improved to 57.80% in the second quarter from 58.36% in the prior quarter.

Hanmi recorded a provision for income taxes of \$5.9 million for the second quarter of 2018, representing an effective tax rate of 27.5%, compared with \$5.7 million, representing an effective tax rate of 27.8%, for the first quarter. Our effective tax rate for the second quarter of 2017 was 38.5% with a provision of \$9.1 million. The year-over-year decrease was a result of the lower Federal corporate tax rate beginning in 2018.

Financial Position

Total assets were \$5.42 billion at June 30, 2018, a 2.1% increase from \$5.31 billion at March 31, 2018. The increase in total assets was primarily due to an increase in loans and leases receivable.

Loans and leases receivable, before the allowance for loan and lease losses, were \$4.54 billion at June 30, 2018, up 2.9% from \$4.41 billion at the end of the prior quarter. The increase in loans and leases from the first quarter reflects Hanmi's continued strong loan and lease production. Loans held for sale, representing the guaranteed portion of SBA loans, were \$5.3 million at June 30, 2018 compared with \$6.0 million at the end of the first quarter.

Loans and leases receivable, before the allowance for loan and lease losses, increased 11.5% from \$4.07 billion for the second quarter last year, primarily due to strong loan and lease production over the last twelve months.

Non-GAAP Financial Measures

Tangible Common Equity to Tangible Assets Ratio

Tangible common equity to tangible assets ratio is supplemental financial information determined by a method other than in accordance with U.S. generally accepted accounting principles (“GAAP”). This non-GAAP measure is used by management in the analysis of Hanmi’s capital strength. Tangible equity is calculated by subtracting goodwill and other intangible assets from stockholders’ equity. Banking and financial institution regulators also exclude goodwill and other intangible assets from stockholders’ equity when assessing the capital adequacy of a financial institution. Management believes the presentation of this financial measure excluding the impact of these items provides useful supplemental information that is essential to a proper understanding of the capital strength of Hanmi. This disclosure should not be viewed as a substitution for results determined in accordance with GAAP, nor is it necessarily comparable to non-GAAP performance measures that may be presented by other companies.

The following table reconciles this non-GAAP performance measure to the GAAP performance measure for the periods indicated:
