LOS ANGELES, Jan. 28, 2020 (GLOBE NEWSWIRE) -- **Hanmi Financial Corporation (NASDAQ: HAFC, or "Hanmi")**, the parent company of Hanmi Bank (the "Bank"), today reported net income for the 2019 fourth quarter of \$3.1 million, or \$0.10 per diluted share, compared with \$12.4 million, or \$0.40 per diluted share for the 2019 third quarter and \$11.4 million, or \$0.37 per diluted share for the 2018 fourth quarter. 2019 fourth quarter net income included a \$6.9 million specific provision for loan and lease losses related to the previously identified \$39.7 million troubled loan relationship.

For the 2019 year, net income was \$32.8 million, or \$1.06 per diluted share, compared with \$57.9 million, or \$1.79 per diluted share, for 2018.

Bonnie Lee, President and Chief Executive Officer, said, “Hanmi’s performance in the fourth quarter was highlighted by excellent growth in loan and lease production along with an improving mix of deposits. Total loan and lease production volume of \$381.4 million increased more than 75% from the prior quarter and nearly 55% from the fourth quarter last year. Despite the strong loan and lease production, payoffs more than doubled from the prior quarter, which resulted in loan and lease growth in the fourth quarter of 3.6% on an annualized basis. In addition, we benefitted during the year from an 8.3% increase in noninterest-bearing demand deposits along with a 13.6% reduction in time deposits that helped mitigate competitive pressure on loan yields.”

Ms. Lee continued, “Net income for the quarter included a \$6.9 million specific provision related to the previously identified \$39.7 million troubled loan relationship. We continue to work with the borrower on an orderly resolution to the relationship and the borrower has continued payments, reducing the relationship to \$39.7 million from \$40.7 million at midyear. With the loans comprising this relationship maturing on December 31, 2019, we received current appraisals on the personal property securing the relationship and have provided for a specific allowance at the lower range of the appraised values. Notwithstanding this particular relationship, Hanmi’s overall credit quality metrics remain strong.”

Ms. Lee concluded, “As we look ahead to 2020, given our strong deposit franchise and loan and lease pipeline I believe Hanmi is well-positioned to deliver profitable growth throughout the year.”

Results of Operations

Net interest income was \$43.9 million for the fourth quarter of 2019 compared with \$44.1 million for the third quarter of 2019. Fourth quarter interest and fees on loans and leases decreased 2.9%, or \$1.7 million, from the preceding quarter primarily due to an 11 basis point reduction in average yields, which was a function of the decline in the overnight rate by 25 basis points. This was partially offset by a decrease in total interest expense of 7.5%, or \$1.4 million, from the preceding quarter due primarily to lower rates paid on interest-bearing deposits. Fourth quarter loan prepayment penalties were \$0.7 million compared with \$0.3 million for the third quarter.

Net interest income of \$175.9 million for the full year in 2019 decreased 2.8% compared with \$181.0 million for the full year in 2018. The year-over-year decline in net interest income reflects an 11 basis point increase in average yield on higher average interest-earnings assets that was more than offset by a 48 basis point increase in average rate paid on average interest-bearing deposits.

Net interest margin was 3.32% for the fourth quarter of 2019 compared with 3.36% for the third quarter of 2019, principally reflecting a 15 basis point decline in the yield on earning assets offset by a 16 basis point decline in the cost of interest-bearing deposits. For the full year, net interest margin was 3.37% for 2019 compared with 3.57% for 2018.

The average earning asset yield was 4.59% for the fourth quarter of 2019 compared with 4.74% for the third quarter of 2019. The 15 basis point decline reflects in part the 25 basis point decline in the overnight rate. Full year yields increased 11 basis points year-over-year to 4.73%.

The cost of interest-bearing liabilities was 1.89% for the fourth quarter of 2019 compared with 2.04% for the third quarter of 2019. The lower cost of interest-bearing liabilities was driven by a reduction in the general level of interest rates. For 2019, the cost of interest-bearing liabilities was 1.99% compared with 1.55% for the full year 2018, reflecting a decreasing interest rate environment in the second half of 2019.

For the fourth quarter of 2019, the loan and lease loss provision was \$10.8 million compared with \$1.6 million for the preceding quarter, and \$3.0 million for the fourth quarter of 2018. The 2019 fourth quarter provision included a \$6.9 million specific provision for a previously identified troubled loan relationship. The loan and lease loss provision for the full year 2019 was \$30.2 million compared with \$4.0 million for 2018. 2019 included a \$22.6 million specific provision for the previously identified troubled loan relationship.

Fourth quarter noninterest income decreased 2.2% to \$6.7 million from \$6.9 million for the third quarter, primarily due to a \$0.3 million decrease in gain on sale of SBA loans. Gains on sales of SBA loans were \$1.5 million for the fourth quarter 2019, down from \$1.8 million for the preceding quarter reflecting lower trade premiums of 7.60% compared with 9.15%. The volume of SBA loans sold for the 2019 fourth quarter and third quarter were \$24.9 million and \$24.3 million, respectively. Servicing income reflected a higher level of amortization arising from elevated pay-offs, and other income included \$0.5 million from the accretion of purchase discount related to matured leases.

Noninterest income was \$27.6 million for the full year 2019 compared with \$24.5 million for 2018 primarily due to higher gain on sale of SBA loans and securities and a \$1.2 million gain on sale of bank premises.

During the fourth quarter, noninterest expense increased 4.5% to \$34.1 million from \$32.6 million in the third quarter principally due to a \$1.7 million impairment loss on former bank premises to be sold and a \$0.6 million increase in the provision for off balance sheet items arising from an increase in commitments to extend credit and an increase in related estimated loss factors.

Noninterest expense for the year ended December 31, 2019 were \$125.9 million, reflecting an increase of \$8.3 million from the year ended December 31, 2018 stemming mostly from the \$1.7 million impairment loss, higher professional fees principally related to the reporting delay and CECL implementation, and increased investments in technology. The efficiency ratio for full year 2019 was 61.89% compared to 57.20% for the prior year.

Non-GAAP Financial Measures

Tangible Common Equity to Tangible Assets Ratio

Tangible common equity to tangible assets ratio is supplemental financial information determined by a method other than in accordance with U.S. generally accepted accounting principles ("GAAP"). This non-GAAP measure is used by management in the analysis of Hanmi's capital strength. Tangible common equity is calculated by subtracting goodwill and other intangible assets from stockholders' equity. Banking and financial institution regulators also exclude goodwill and other intangible assets from stockholders' equity when assessing the capital adequacy of a financial institution. Management believes the presentation of this financial measure excluding the impact of these items provides useful supplemental information that is essential to a proper understanding of the capital strength of Hanmi. This disclosure should not be viewed as a substitution for results determined in accordance with GAAP, nor is it necessarily comparable to non-GAAP performance measures that may be presented by other companies.

The following table reconciles this non-GAAP performance measure to the GAAP performance measure for the periods indicated:
