Hanmi Financial Corporation Reports<br>First Quarter 2010 Financial Results

LOS ANGELES - April 29, 2010 - Hanmi Financial Corporation (NASDAQ: HAFC), the holding company for Hanmi Bank, today reported a first quarter net loss of $\$ 49.5$ million, or $\$ 0.97$ per share, primarily driven by $\$ 58.0$ million in credit loss provisions, compared to a net loss of $\$ 17.2$ million, or $\$ 0.37$ per share, in the first quarter a year ago when it took a $\$ 46.0$ million provision.
"Although we continue to face challenging economic conditions, we are making progress preserving liquidity, growing core deposits, building reserves for loan losses, and expanding our net interest margin," said Jay S. Yoo, President and Chief Executive Officer. "As a result of continuing problems with our loan portfolio, we once again set aside a substantial provision for loan losses. The impact of the elevated levels of provision for loan losses, the change in deferred tax asset valuation and rising costs associated with loan and OREO workout expenses are the primary contributors to our current quarter loss.
"We are also making progress on achieving full compliance with previously announced regulatory requirements by strengthening our capital position, improving asset quality, and enhancing liquidity," Yoo continued. "Our progress in the first quarter of the year is noteworthy, with a strong liquidity position, reduced loan and securities portfolios, and solid interest from investors to bring in fresh capital."

First Quarter 2010 Highlights (as of and for the quarter ended March 31, 2010 compared to March 31, 2009)

- The allowance for loan losses increased $69 \%$ to $\$ 177.8$ million, or $6.63 \%$ of total loans.
- Core deposits, which exclude brokered deposits and jumbo CDs, increased by $9.8 \%$ or $\$ 137.7$ million to $\$ 1.54$ billion, reflecting the continued strong support of the local community. Non-interest bearing demand deposits grew $6 \%$ year over year and $3 \%$ in the quarter to $\$ 575.0$ million, and now account for $22 \%$ of total deposits.
- Continuing successful deleveraging of the balance sheet resulted in assets declining $22 \%$ to $\$ 3.02$ billion, with gross loans down $19 \%$, securities down $31 \%$, and Federal Home Loan Bank advances down $51 \%$.
- Net interest margin expanded 23 basis points in the quarter and 119 basis points year over year to $3.69 \%$, reflecting a 38 basis point drop in the quarter and 140 basis points year over year in the total cost of funds.

## Capital Adequacy

"We continue to work with a sense of urgency toward the goal of adding capital in order to improve our capital position," said Yoo. "We are encouraged by the recent influx of new capital into the local market, and hope that investors will continue to favor our financial sector. Our goal is to raise enough new equity to strengthen our capital ratios and provide us with the capital strength to emerge from these challenging economic times."
At March 31, 2010, the Bank's Tier 1 Leverage was $5.68 \%$; Tier 1 Risk-Based Capital was $6.49 \%$ and Total Risk-Based Capital Ratio was $7.81 \%$. The ratio of tangible shareholders' equity to total tangible assets for the first quarter was $5.89 \%$ compared to $7.13 \%$ at December 31, 2009 .

## Asset Quality

"With more than $80 \%$ of our loans in Southern California, our business is greatly influenced by the local economy, which has been quite difficult for the people and businesses of Los Angeles for the past two years. While the Los Angeles County Economic Development Corporation forecasts gradual economic improvement during 2010 and 2011 in its February report, the recovery has yet to provide relief to the commercial and residential real estate markets we serve," said Yoo. "Consequently, we continue to see adverse results in our loan portfolio."

Non-performing loans (NPLs) totaled $\$ 262.2$ million, or $9.77 \%$ of gross loans at March 31, 2010, compared with $\$ 219.1$ million, or $7.77 \%$ of gross loans at December 31 , 2009 , and $\$ 156.3$ million or $4.71 \%$ of gross loans at March 31, 2009. Of the total non-performing loans $\$ 94.8$ million or $36.14 \%$ were current on payments. The majority of these non-performing loans are supported by collateral. As of March 31, 2010, the bank has recorded an impairment reserve of $\$ 27.2$ million on these non-performing loans. Of the increase in first quarter non-performing loans, $75 \%$ is related to a $\$ 32.6$ million bridge loan secured by 29 acres of vacant land in Northern California that moved into the non-performing category. "We are currently talking with interested parties for the future sale of this property without a significant loss," Yoo noted. The following table shows nonperforming loans by loan category:

Other real estate owned (OREO) has declined in the past two quarters and now stands at $\$ 22.4$ million at March 31, 2010, down from $\$ 26.3$ million at December 31, 2009 and up from $\$ 1.2$ million a year ago. During the first quarter, $\$ 3.9$ million of OREO was sold and $\$ 4.4$ million of nonaccrual loans were foreclosed. "We have been aggressive in selling loans prior to foreclosure," said Yoo. Total non-performing assets were $\$ 284.6$ million, or $9.49 \%$ of total assets at March 31 , 2010, compared to $\$ 245.4$ million, or $7.76 \%$ of total assets at December 31, 2009, and $\$ 157.5$ million, or $4.06 \%$ of total assets at March 31, 2009.
Delinquent loans (DLs) on accrual status were $\$ 68.6$ million or $29.1 \%$ at March 31,2010 , up from $\$ 41.2$ million or $22.1 \%$ at December 31,2009 , and $\$ 48.0$ or $29.2 \%$ at March 31, 2009. The following table shows DLs on accrual status by loan category:

| Total DLs (Accrual Status) | 68,640 | 29.1\% | 41,151 | 22.1\% | 48,046 | 29.2\% |

At March 31, 2010, the allowance for loan losses increased $22.64 \%$ to $\$ 177.8$ million, or $6.63 \%$ of gross loans and $67.81 \%$ of NPLs, compared to $\$ 145.0$ million, or $5.14 \%$ of gross loans and $66.19 \%$ of NPLs at December 31, 2009, and $\$ 104.9$ million, or $3.16 \%$ of gross loans and $67.13 \%$ of NPLS at March 31, 2009. First-quarter charge-offs, net of recoveries, were $\$ 26.4$ million compared to $\$ 57.3$ million in the prior quarter and $\$ 11.8$ million in the first quarter of 2009.

The increase in the allowance for loan losses was mainly due to an increase in quantitative reserves to $\$ 120.0$ million from $\$ 90.1$ million at December 31 , 2009. The impaired loan reserves totaled $\$ 27.2$ million, up from $\$ 23.1$ million at December 31, 2009 and the qualitative reserve portion of the allowance slightly decreased to $\$ 30.5$ million from $\$ 31.6$ million at the end of the fourth quarter.

## Balance Sheet

Reflecting the Bank's ongoing program to de-leverage its balance sheet, total assets decreased to $\$ 3.02$ billion, at March 31,2010 , a $5 \%$ decline from $\$ 3.16$ billion at December 31, 2009, and a $22 \%$ decline from $\$ 3.88$ billion at March 31, 2009. Gross loans, net of deferred loan fees, were $\$ 2.68$ billion as of March 31,2010 , down $5 \%$ from $\$ 2.82$ billion at December 31, 2009, and down 19\% from $\$ 3.32$ billion at March 31, 2009.
"Our depositors have been supportive of the bank during these difficult times and we appreciate their loyalty in helping us to continue to build core deposits," stated Yoo.
"We are continuing to reduce our reliance on brokered deposits as we continue to de-leverage our balance sheet." Total deposits decreased $17 \%$ year over year and $4 \%$ during the quarter with jumbo CDs and other time deposits down $14 \%$ and $60 \%$, respectively, compared to a year ago. Total deposits were $\$ 2.65$ billion at March 31 , 2010 , compared to $\$ 2.75$ billion at December 31, 2009, and $\$ 3.20$ billion at March 31, 2009. Demand deposits increased $3.4 \%$, to $\$ 575.0$ million at the end of the first quarter from $\$ 556.3$ million at December 31, 2009. "We continue to reduce our reliance on wholesale funding, reflecting a decrease in brokered deposits from a year ago. FHLB advances are down $51 \%$ from a year ago to $\$ 153.9$ million."
"We continue to maintain strong liquidity in order to meet our customers' needs. We have a sound mix of funding sources, including core deposits, which are increasing, sale of long-term assets such as non-performing loans, and our contingent borrowing lines with the Federal Home Loan Bank and Federal Reserve Bank," said Brian Cho, Chief Financial Officer.

## Results of Operations

Net interest income before provision for credit losses totaled $\$ 27.3$ million, a $4 \%$ decrease from $\$ 28.4$ million in the preceding quarter and an $18 \%$ increase from the $\$ 23.1$ million in first quarter a year ago, with lower cost of funds offsetting lower yields on interest earning assets.
The average yield on the loan portfolio was $5.38 \%$ in the first quarter of 2010, a 16 basis point decrease from the prior quarter, reflecting the increase of nonaccrual loans. The cost of average interest-bearing deposits in the first quarter was $1.87 \%$, down 39 basis points from the fourth quarter of 2009. As a result, Hanmi's net interest margin improved 23 basis points to $3.69 \%$ up from $3.46 \%$ percent in the fourth quarter of 2009 .

The provision for credit losses in the first quarter of 2010 was $\$ 58.0$ million, compared to $\$ 77.0$ million in the prior quarter and $\$ 46.0$ million in the first quarter a year ago. The provision in all periods was well above the rate of net charge-offs,
taken in the respective periods. The provision for loan losses increased primarily due to the increase of historical loss ratios used in ALLL migration analysis which was the result of the elevated level of net charge-offs in recent quarters.
Total non-interest income in the first quarter of 2010 was $\$ 7.0$ million compared to $\$ 7.8$ million in the fourth quarter of 2009 and $\$ 8.5$ million in the first quarter of 2009 . Lower gains from asset sales and reduced fee income caused by the slow economy contributed to the decline in non-interest income. In addition, gains from sales of SBA loans were deferred to the second quarter due to changes in the accounting rules for such sales.

In the first quarter of 2010 , net gain on sales of investment securities decreased by $\$ 1.1$ million to $\$ 105,000$ from $\$ 1.2$ million in the first quarter a year ago. In the fourth quarter of 2009, $\$ 54.6$ million of investment securities were sold, generating solid profits in the quarter, whereas in the first quarter of 2010 , only $\$ 3.1$ million in securities were sold.

First quarter service charges on deposit accounts decreased to $\$ 3.7$ million, a $14 \%$ decline from $\$ 4.3$ million for the first quarter of 2009, reflecting lower overdraft charges and reduced fees from account analysis. Insurance commission increased $8 \%$ to $\$ 1.3$ million in the first quarter of 2010 from $\$ 1.2$ million in the first quarter a year ago as the marketing campaign for insurance products met with success throughout the branch banking network. Remittance fees and loan-related servicing fees both dropped slightly in the first quarter from a year ago. Fees generated from international trade finance decreased $31 \%$ to $\$ 351,000$ in the first quarter of 2010 from $\$ 506,000$ in the first quarter a year ago, reflecting the decrease of import and export letters of credit.

Total non-interest expense in the first quarter of 2010 was $\$ 26.2$ million, up from $\$ 22.7$ million in the fourth quarter of 2009 and $\$ 18.4$ million in the first quarter a year ago. Continuing high levels of expenditures for OREO management and credit collections expenses were the primary drivers of higher operating expense, coupled with higher FDIC insurance premiums . "We completed the foreclosure of an 88 -unit condominium project in Northern California last year and booked a $\$ 4$ million write down on the property during the first quarter to bring the carrying value to $\$ 22$ million," Cho noted. "These added expenses is not typical for our operations and was the major component of the $\$ 5.7$ million OREO expense in the first quarter of 2010 " In the fourth quarter of 2009 , OREO expenses was $\$ 873,000$ and it was just $\$ 143,000$ in the first quarter a year ago.
