**Item 2.02 Results of Operations and Financial Condition.**

This information set forth under “Item 2.02. Results of Operations and Financial Condition,” including Exhibit 99.1 attached hereto, shall not be deemed “filed” for purposes of Section 18 of the Securities and Exchange Act of 1934, as amended (the “Exchange Act”) or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, regardless of any general incorporation language in such filing.

On April 21, 2011, Hanmi Financial Corporation (“Hanmi Financial”) issued a press release announcing its financial results for the three months ended March 31, 2011. A copy of the press release is attached as Exhibit 99.1 to this Form 8-K.

**Item 9.01 Financial Statements and Exhibits.**

(d) Exhibits

99.1 Press release issued by Hanmi Financial dated April 21, 2011.

**Forward-Looking Statements**

This form contains forward-looking statements, which are included in accordance with the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995. In some cases, you can identify forward-looking statements by terminology such as “may,” “will,” “should,” “could,” “expects,” “plans,” “intends,” “anticipates,” “believes,” “estimates,” “predicts,” “potential,” or “continue,” or the negative of such terms and other comparable terminology. Although Hanmi believes that the expectations reflected in the forward-looking statements are reasonable, it cannot guarantee future results, levels of activity, performance or achievements. These statements involve known and unknown risks, uncertainties and other factors that may cause Hanmi’s actual results, levels of activity, performance or achievements to differ from those expressed or implied by the forward-looking statement. These factors include the following: failure to maintain adequate levels of capital and liquidity to support Hanmi’s operations; the effect of regulatory orders Hanmi or the Bank has entered into and potential future supervisory action against Hanmi or the Bank; general economic and business conditions internationally, nationally and in those areas in which the Bank operates; volatility and deterioration in the credit and equity markets; changes in consumer spending, borrowing and savings habits; availability of capital from private and government sources; demographic changes; competition for loans and deposits and failure to attract or retain loans and deposits; fluctuations in interest rates and a decline in the level of the Bank’s interest rate spread; risks of natural disasters related to the Bank’s real estate portfolio; risks associated with Small Business Administration loans; failure to attract or retain key employees; changes in governmental regulation, including, but not limited to, any increase in FDIC insurance premiums; ability to receive regulatory approval for the Bank to declare dividends to Hanmi; adequacy of the Bank’s allowance for loan losses, credit quality and the effect of credit quality on the Bank’s provision for credit losses and allowance for loan losses; changes in the financial performance and/or condition of the Bank’s borrowers and the ability of the Bank’s borrowers to perform under the terms of their loans and other terms of credit agreements; Hanmi’s ability to successfully integrate acquisitions it may make; Hanmi’s ability to control expenses; and changes in securities markets. In addition, Hanmi sets forth certain risks in its reports filed with the Securities and Exchange Commission, including Hanmi’s Annual Report on Form 10-K for the fiscal year ended December 31, 2010 and current and periodic reports filed with the Securities and Exchange Commission thereafter, which could cause actual results to differ from those projected. You should understand that it is not possible to predict or identify all such risks. Consequently, you should not consider such disclosures to be a complete discussion of all potential risks or uncertainties. Hanmi undertakes no obligation to update such forward-looking statements except as required by law.

---

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

<b>Exhibit No.</b>	<b>Description</b>
99.1	Press Release, dated April 21, 2011.*

\* Deemed “furnished” and not “filed” for purposes of Section 18 of the Exchange Act or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, regardless of any general incorporation language in such filing.

Hanmi Financial Posts 1Q11 Earnings of \$10.4 Million, Doubled from 4Q10;  
Continues Profitability for Second Consecutive Quarter

LOS ANGELES — April 21, 2011 — Hanmi Financial Corporation (NASDAQ: HAFK), the holding company for Hanmi Bank, today reported it earned \$10.4 million, or \$0.07 per diluted share, for the first quarter of 2011, up 96.5% from \$5.3 million, or \$0.04 per diluted share, in the fourth quarter of 2010, and a substantial improvement from its net loss of \$49.5 million, or \$0.97 per share, in the year ago quarter.

“As we start 2011, we are pleased that our first quarter financial results reflect improvement in the strength of our franchise. Our increasing profitability in this quarter reflects continuing improvements in credit quality, net interest margin, and efficiency,” said Jay S. Yoo, President and Chief Executive Officer. “Hanmi is emerging from this credit cycle with a stronger balance sheet than a year ago, and we anticipate improved operating results for the rest of 2011 and going forward. We believe our recent performance reflects the work of our employees and the confidence our customers show in us.”

**First Quarter 2011 Highlights** (at or for the period ended March 31, 2011)

- Hanmi’s first quarter net income of \$10.4 million, or \$0.07 per diluted share, was the second consecutive quarterly profit and the largest quarterly profit since the second quarter of 2007.
- Non-performing assets (NPA) declined 10.8% to \$154.4 million, or 5.36% of total assets, from \$173.1 million, or 5.95% of total assets in the fourth quarter, which represents the lowest level since the first quarter of 2009. Nonperforming assets were down 45.8% from \$284.6 million, or 9.43% of total assets a year ago.
- Delinquent loans, which are 30 to 89 days past due, were \$20.7 million, a slight decrease of \$746,000 from the fourth quarter of 2010, and significantly improved year-over-year, declining 69.8% from \$68.6 million a year ago.
- There was no provision for credit losses during the first-quarter of 2011. Total net charge-offs declined to \$21.6 million in the first quarter of 2011, a \$13.7 million reduction from \$35.2 million in the fourth quarter of 2010. While net charge-offs continued to exceed the provision for loan losses in the first quarter, the improving credit quality of the loan portfolio allowed for the reduction of the allowance this quarter.
- The coverage ratio of the loan loss allowance to non-performing loans increased to 82.9% at March 31, 2011, compared to 67.8% a year ago.
- Total assets were \$2.88 billion, a decline of \$27.5 million, or 0.9%, on a sequential quarter basis. Similarly, total deposits were \$2.43 billion, down 1.5% from the fourth quarter of 2010. Consistent with previous quarters, the balance-sheet deleveraging slowed substantially in the first quarter of 2011.
- Total deposits decreased \$35.8 million, or 1.5%, to \$2.43 billion during the quarter from \$2.47 billion in the prior quarter while core deposits, which are total deposits less time deposits greater than \$100,000, increased to \$1.45 billion, up \$105.1 million, or 7.8%, on a sequential quarter basis, due to a continued core-deposit campaign.
- Net interest margin (NIM) improved to 3.66% in the first quarter of 2011, up 18 basis points from 3.48% in the fourth quarter of 2010 and down just 3 basis points from the first quarter a year ago.
- Capital ratios remained strong with total risk based capital to assets at 13.0% up from 12.22% at the end of 2010.

**Capital Management**

“With the \$120 million capital raise last year and positive earnings for the last two quarters, our capital levels at Hanmi Bank have continued to improve and reached their highest level since the third quarter of 2009,” Yoo stated. “We are continuing to work on strengthening our balance sheet and fulfilling all current regulatory requirements. While internally our asset quality is improving, and externally the economy appears to be gradually recovering, we remain focused on continuing to improve our performance and condition. We continue to evaluate opportunities to further enhance our capital position with additional capital, so as to strengthen our balance sheet for future growth as well as unexpected events. We are actively considering various alternatives for raising capital, including Woori Finance’s proposed investment, and expect to make progress during the second quarter of 2011.”

At March 31, 2011, the Bank’s Total Risk-Based Capital Ratio was 13.0% compared to 12.22% in the immediate prior quarter and 7.81% a year ago. Tier 1 Risk-Based Capital Ratio was 11.70% compared to 10.91% at December 31, 2010,

and 6.49% a year ago. First quarter Tier 1 Leverage Ratio was 9.08% compared to 8.55% in the fourth quarter and 5.68% in the first quarter of 2010. The Bank's Tangible Common Equity to Tangible Assets at March 31, 2011 was 9.10% compared to 8.59% in the linked quarter and 5.89% a year ago. All of the Bank's capital ratios were above the minimum regulatory standards for being considered to be "well-capitalized" for regulatory purposes. The Bank's Tangible Common Equity to Tangible Assets at March 31, 2011, is still below the requirements set forth in the Final Order issued to Hanmi Bank by the California Department of Financial Institutions requiring 9.5%.

#### Asset Quality

"Our efforts to improve our credit risk management system are bringing positive results," said J.H. Son, Executive Vice President and Chief Credit Officer. "We have committed additional resources to credit underwriting, monitoring and review, as well as devoting time and resources to problem asset resolution and asset sales. We believe that these initiatives have significantly reduced nonperforming assets from the peak reached in the first quarter of last year."

Non-performing loans (NPLs) declined 10% to \$151.7 million at March 31, 2011, from \$169.0 million at December 31, 2010, and are down 42% from \$262.2 million at March 31, 2010. Of the total NPLs, \$53.4 million, or 35%, were current on payments. In addition, \$20.9 million, or 14%, were recorded at the lower of cost or fair value as we have classified these loans as held for sale. During the quarter, we sold 18 NPLs with net proceeds of \$27.9 million, which generated a net gain of \$1.9 million and a recovery of \$578,000 in the first quarter of 2011. Hanmi actively manages its loan portfolio and regularly sells NPLs prior to foreclosure, which partially accounts for the reduction in NPAs. The following table shows non-performing loans by loan category:

#### Total Non-Performing Loans

<i>(Dollars in Thousands)</i>	03/31/2011	% of Total NPL	12/31/2010	% of Total NPL	03/31/2010	% of Total NPL

<b>TOTAL NPL (1)</b>	<b>151,730</b>	<b>100.0%</b>	<b>169,028</b>	<b>100.0%</b>	<b>262,232</b>	<b>100.0%</b>

(1) Includes loans held for sale of \$26.9 million, \$26.6 million and \$5.5 million as of March 31, 2011, December 31, 2010, and March 31, 2010, respectively.

Sale of other real estate owned (OREO), continued during the first quarter, with three properties sold for net proceeds of \$1.8 million, resulting in a \$219,000 net gain. OREO totaled \$2.6 million at March 31, 2011, down from \$4.1 million at December 31, 2010 and also down from \$22.4 million a year ago.

"We are also diligently working with customers who only recently have fallen behind on payments and are less than 90 days delinquent on their loans," Son said. Delinquent loans, which are not included in the NPL totals, decreased to \$20.7 million, or 0.95% of gross loans at March 31, 2011, from \$68.6 million, or 2.56% of gross loans at March 31, 2010. On a sequential quarter basis, the amount of delinquent loans on accrual status slightly decreased 746,000 from \$21.5 million or 0.95% of gross loans at December 31, 2010.

<b>Consumer Loans</b>	<b>180</b>	<b>0.9%</b>	<b>629</b>	<b>2.9%</b>	<b>433</b>	<b>0.6%</b>
<b>TOTAL (1)</b>	<b><u>20,711</u></b>	<b><u>100.0%</u></b>	<b><u>21,457</u></b>	<b><u>100.0%</u></b>	<b><u>68,640</u></b>	<b><u>100.0%</u></b>

(1) Includes loans held for sale of \$774,000 as of March 31, 2011.

At March 31, 2011, the allowance for loan losses declined 13.9% to \$125.8 million, or 5.79% of gross loans, from \$146.1 million in the preceding quarter, or 6.44% of gross loans, and compared to \$177.8 million, or 6.63% of gross loans a year ago. The ratio of Hanmi's loan loss allowance to non-performing loans at March 31, 2011, increased to 83%, up from 68% a year ago. First quarter charge-offs, net of recoveries, were \$21.6 million compared to \$35.2 million in the fourth quarter and \$26.4 million in the first quarter of 2010.

Hanmi recorded a zero provision for credit losses in the first quarter of 2011, down from \$5.0 million and \$58.0 million in the prior quarter and the first quarter a year ago, respectively. Total allowance for loan and lease losses has subsequently decreased over the last two consecutive quarters as a result of continuing improvements in Hanmi's credit metrics. As such, provisioning expense with relation to loans has been minimal for the past two quarters. This assessment also takes into account many factors, including net loan charge-offs, nonaccrual loans, specific reserves, risk-rating migration and changes in the portfolio composition and size.

The Bank reversed \$1.3 million in provision for off-balance sheet items, resulting from a decrease of off-balance sheet reserves from \$3.4 million in the prior quarter to \$2.1 million in the current quarter. The reversal was primarily due to off-balance reserves for international loans, commercial lines of credit, and construction loans, which decreased by \$787,000, \$155,000, and \$145,000, respectively.

Hanmi has used its resources to proactively resolve credit issues arising from the current economic downturn. The following table shows Hanmi's credit quality trends since the first quarter of 2007.

Credit Quality Trends (Dollars in Thousands)

	Provision for Credit Losses	Net Charge-offs	Allowance for Loan Losses to Gross Loans (%)	30-89 Days Past Due to Gross Loans(%)	Non-performing Assets to Total Assets (%)
03/31/2007	6,132	2,404	1.08	0.69	0.52
06/30/2007	3,023	2,518	1.05	0.52	0.61
09/30/2007	8,464	6,084	1.07	0.52	1.12

03/31/2011	—	21,555	5.79	0.95	5.36

For the quarters ended March 31, 2011, December 31, 2010 and March 31, 2010, we sold loans with carrying value of \$26.0 million resulting in net proceeds of \$27.9 million, \$28.6 million resulting in net proceeds of \$23.8 million and \$26.7 million resulting in net proceeds of \$25.2 million, respectively. At March 31, 2011, loans held for sale totaled \$47.6 million, an increase of \$11.0 million, or 30.1%, from \$36.6 million at December 31, 2010 and an increase of \$37.5 million from \$10.1 million at March 31, 2010. The increases in loans held for sale reflected efforts to improve asset quality through the disposition of problem assets. At March 31, 2011, loans with \$50.7 million in recorded investment remained to be sold at a carrying value of \$47.6 million.

## Balance Sheet

Total assets decreased slightly at the end of the first quarter of 2011 to \$2.88 billion, from \$2.91 billion at December 31, 2010, and down 4.6% from \$3.02 billion at March 31, 2010. Gross loans, net of deferred loan fees, were \$2.17 billion at March 31, 2011, down 4.1% from \$2.27 billion at December 31, 2010, and down 19% from \$2.68 billion at March 31, 2010.

Average gross loans decreased 19.2% to \$2.23 billion for the first quarter of 2011 from \$2.77 billion for the like quarter a year ago and declined 4.9% from \$2.35 billion for the fourth quarter of 2010. Loan balances reflect continued progress in reducing the number of problem loans, along with relatively weak loan demand due to challenging business and economic conditions.

Hanmi's average investment securities portfolio more than tripled to \$473.1 million for the first quarter of 2011 from \$125.3 million for the first quarter a year ago and increased 34.8% from \$351.0 million from the quarter ended December 31, 2010. Surplus funds primarily generated from aggressive loan sales and the \$120 million capital raise along with relatively weak loan demand contributed to the increase in investment securities over the past year. The securities portfolio contains mostly high-quality short and mid-term investments that are selected to provide a relatively stable source of interest income, while maintaining strong liquidity. U.S. Government agency bonds, mortgage backed securities and securities collateralized by residential mortgages guaranteed by U.S. Government sponsored entities account for 90% of the securities portfolio. In anticipation of rising interest rates, management purchased government-sponsored investment securities with short durations.

Including secured off-balance sheet lines of credit, total available liquidity to Hanmi was \$1.1 billion at March 31, 2011, representing 37.1% of total assets and 44% of total deposits. "We believe our liquidity is more than sufficient to meet the needs of our customers," said Yoo. The Bank's increase in investment securities also provides a balance of liquidity and yield, and is a source of funding for future loan growth.

Average deposits also decreased 7.7% to \$2.46 billion for the first quarter of 2011 from \$2.66 billion for the like quarter in 2010, and declined 2.2% from \$2.51 billion for the first quarter of 2010. The deleveraging strategy employed last year focused on reduction in promotional time deposits and reduced reliance on non-retail deposits, including brokered time deposits and funds raised from rate listing services.

The improvement in the deposit mix contributed to lower costs. Transaction deposits, excluding time deposits, accounted for 47.7% of total deposits, up from 43.1% in the prior quarter and 44.7% at the end of the first quarter a year ago. There are no brokered deposits in the deposit mix at quarter-end. Total deposits decreased 8.3% year-over-year and declined 1.5% from the prior quarter. While the quarter-over-quarter decline in total deposits was mainly attributable to a \$42.5 million, or 25% decrease in time deposits raised from rate listing services, the year-over-year decrease in total deposits was primarily due to a \$63.4 million decrease in total deposits. Total deposits were \$2.43 billion at March 31, 2011, compared to \$2.47 billion at December 31, 2010, and \$2.65 billion at March 31, 2010.

## Results of Operations

Net interest income, before the provision for credit losses, totaled \$26.1 million for the first quarter of 2011, which was up 0.5% from \$26.0 million in the linked quarter and down 5% from \$27.3 million in the first quarter a year ago. Interest income was down 2.1% in the quarter and 11% from a year ago, while interest expense fell 10.1% in the quarter and 27.5% year-over-year.

The average yield on the loan portfolio improved 13 basis points to 5.61% from 5.48% from the prior quarter, and was up by 23 basis points from 5.38% from the first quarter in 2010. The cost of average interest-bearing deposits in the first quarter continued to decrease to 1.44%, down 11 basis points from the prior quarter and 43 basis points from the first quarter of 2010. As a result, Hanmi's net interest margin improved 18 basis points to 3.66% in the first quarter of 2011 from 3.48% in the fourth quarter, due mainly to improved yields on interest-earning assets and reduced cost of funds, partially offset by a decline in interest-earning assets. When compared to the first quarter of 2010, net interest margin declined just 3 basis points from 3.69%, due primarily to a decline in interest-earning assets, mainly offset by lower cost of funds.

There was no provision for credit losses in the first quarter of 2011 compared to \$5.0 million in the prior quarter and \$58.0 million in the first quarter a year ago, due to steady declines in classified assets, non-performing loans, and overall loan balance. The provision for loan losses has decreased steadily for five consecutive quarters.

Total non-interest income in the first quarter of 2011 was \$5.5 million, down from \$6.1 million in the fourth quarter of 2010 and down from \$7.0 million in the first quarter a year ago. The year-over-year decrease in non-interest income is due to decreases in service charges on deposit accounts and lower net gains on sales of loans and securities. Service charges on deposit accounts decreased to \$3.1 million for the first quarter of 2011 from \$3.3 million in the linked quarter and \$3.7 million for the first quarter of 2010. The year-over-year decrease in service charges on deposit accounts represented a decrease in NSF service charges due to the continued underlying decline in activity as customers better managed their account balances. In the first quarter of 2011, we recognized \$2.2 million valuation adjustment on loans held for sale, the majority of which was offset by \$1.9 million gains from the sales of loans held for sale. The net amount of \$338,000 was recorded as net loss on sales of loans. When compared to the first quarter of 2011, we recognized \$76,000 and \$105,000 gains on the sales of loans and securities in the prior quarter and the first quarter a year ago, respectively.

Total non-interest expense decreased 3.1% in the quarter and 19.7% year-over-year to \$21.1 million for the first quarter, down from \$21.7 million in the fourth quarter of 2010 and \$26.2 million for the first quarter a year ago. The notable year-over-year improvement was primarily attributable to an 85.5% reduction in OREO expenses as a result of lower losses and write-downs on foreclosed properties.

#### **Conference Call Information**

Management will host a conference today at 1:30 p.m. PDT (4:30 p.m. EDT) to discuss these financial results. This call will also be broadcast live via the internet. Investment professionals and all others are invited to access the live call by dialing or (617) 597-5474 for international callers at 1:30 p.m. (PDT), using access code HANMI. To listen to the call online, either live or archived, visit the Investor Relations page of Hanmi Financial Corporation website at [www.hanmi.com](http://www.hanmi.com). Shortly after the call concludes, the replay will also be available at (617) 801-6888 using access code #84796223, where it will be archived until May 14, 2011.

#### **About Hanmi Financial Corporation**

Headquartered in Los Angeles, Hanmi Bank, a wholly-owned subsidiary of Hanmi Financial Corporation, provides services to the multi-ethnic communities of California, with 27 full-service offices in Los Angeles, Orange, San Bernardino, San Francisco, Santa Clara and San Diego counties, and a loan production office in Washington State. Hanmi Bank specializes in commercial, SBA and trade finance lending, and is a recognized community leader. Hanmi Bank's mission is to provide a full range of quality products and premier services to its customers and to maximize shareholder value. Additional information is available at [www.hanmi.com](http://www.hanmi.com).

#### **Forward-Looking Statements**

This press release contains forward-looking statements, which are included in accordance with the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "could," "expects," "plans," "intends," "anticipates," "believes," "estimates," "predicts," "potential," or "continue," or the negative of such terms and other comparable terminology. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. All statements other than statements of historical fact are "forward-looking statements" for purposes of federal and state securities laws, including, but not limited to, statements about anticipated future operating and financial performance, financial position and liquidity, business strategies, regulatory and competitive outlook, investment and expenditure plans, capital and financing needs and availability, plans and objectives of management for future operations, developments regarding our capital plans, including our securities purchase agreement with Woori Finance Holdings, and other similar forecasts and statements of expectation and statements of assumption underlying any of the foregoing. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ from those expressed or implied by the forward-looking statement. These factors include the following: inability to consummate the proposed transaction with Woori Finance Holdings on the terms contemplated in the Securities Purchase Agreement entered into with Woori on May 25, 2010, as amended (the "Transaction"); failure to receive regulatory approval for the Transaction; inability to continue as a going concern; inability to raise additional capital on acceptable terms or at all; failure to maintain adequate levels of capital and liquidity to support our operations; the effect of regulatory orders we have entered into and potential future supervisory action against us or Hanmi Bank; general economic and business conditions internationally, nationally and in those areas in which we operate; volatility and deterioration in the credit and equity markets; changes in consumer spending, borrowing and savings habits; availability of capital from private and government sources; demographic changes; competition for loans and deposits and failure to attract or retain loans and deposits; fluctuations in interest rates and a decline in the level of our interest rate spread; risks of natural disasters related to our real estate portfolio; risks associated with Small Business Administration loans; failure to attract or retain key employees; changes in governmental regulation, including, but not limited to, any increase in FDIC insurance premiums; ability to receive regulatory approval for Hanmi Bank to declare dividends to Hanmi Financial; adequacy of our allowance for loan losses, credit quality and the effect of credit quality on our provision for credit losses and allowance for loan losses; changes in the financial performance and/or condition of our borrowers and the ability of our borrowers to perform under the terms of their loans and other terms of credit agreements; our ability to successfully integrate acquisitions we may make; our ability to control expenses; and changes in securities markets. In addition, we set forth certain risks in our reports filed with the U.S. Securities and Exchange Commission ("SEC"), including, in particular Item 1A of our Form 10K for the year ended December 31, 2010, as well as current and periodic reports filed with the U.S. Securities and Exchange Commission hereafter, which could cause actual results to differ from those projected. We undertake no obligation to update such forward-looking statements except as required by law.

#### **Cautionary Statements**

Future issuance of any securities relating to the Woori transaction has not been and will not be registered under the Securities Act of 1933, as amended, or any state securities laws, and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the Securities Act and applicable state securities laws. This press release shall not constitute an offer to sell or the solicitation of an offer to buy any securities, nor shall there be any sale of securities in any jurisdiction or state in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction or state.

## Non-GAAP Financial Measures

### Tangible Common Equity to Tangible Assets Ratio

Tangible common equity to tangible assets ratio is supplemental financial information determined by a method other than in accordance with U.S. generally accepted accounting principles ("GAAP"). This non-GAAP measure is used by management in the analysis of Hanmi Bank and Hanmi Financial's capital strength. Tangible equity is calculated by subtracting goodwill and other intangible assets from total stockholders' equity. Banking and financial institution regulators also exclude goodwill and other intangible assets from total stockholders' equity when assessing the capital adequacy of a financial institution. Management believes the presentation of this financial measure excluding the impact of these items provides useful supplemental information that is essential to a proper understanding of the capital strength of Hanmi Bank and Hanmi Financial. This disclosure should not be viewed as a substitution for results determined in accordance with GAAP, nor is it necessarily comparable to non-GAAP performance measures that may be presented by other companies.

The following table reconciles this non-GAAP performance measure to the GAAP performance measure for the periods indicated:
