Note 1 — Organization and Basis of Presentation

Hanmi Financial Corporation (“Hanmi Financial,” the “Company,” “we,” “us” or “our”) is a bank holding company whose primary subsidiary is Hanmi Bank (the “Bank”). Our primary operations are related to traditional banking activities, including the acceptance of deposits and the lending and investing of money by the Bank.

In management’s opinion, the accompanying unaudited consolidated financial statements of Hanmi Financial and its subsidiaries reflect all adjustments of a normal and recurring nature that are necessary for a fair presentation of the results for the interim period ended June 30, 2024. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) have been condensed or omitted. The unaudited consolidated financial statements are prepared in conformity with GAAP and in accordance with the instructions to Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission. Operating results for the three-month or six-month periods ended June 30, 2024 are not necessarily indicative of the results that may be expected for the year ended December 31, 2024 or for any other period. The interim information should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2023 (the “2023 Annual Report on Form 10-K”).

The preparation of interim unaudited consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. These estimates and assumptions affect the amounts reported in the unaudited financial statements and disclosures provided, and actual results could differ.

Recently Issued Accounting Standards Not Yet Effective

Accounting Standards Update (“ASU”) 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures:* In December 2023, the Financial Accounting Standards Board (“FASB”) issued ASU 2023-09 to enhance the transparency and usefulness of income tax disclosures primarily related to income tax rate reconciliation and income taxes information. The amendments in ASU 2023-09 are effective for fiscal years beginning after December 15, 2024. The adoption of ASU 2023-09 is not expected to have material effect on the Company’s operating results or financial condition.

A*SU 2023-07, *Segment Reporting (Topic 280): Segment Reporting: In November 2023, FASB issued ASU 2023-07 to provide updates that improve reportable segment disclosure requirements, primarily through enhanced disclosures on significant segment expenses. The amendments in ASU 2023-07 are effective for fiscal years beginning after December 15, 2024. The adoption of ASU 2023-07 is not expected to have material effect on the Company’s operating results or financial condition.

The Company evaluates its available for sale securities portfolio for impairment on a quarterly basis. The Company did not recognize unrealized losses in income because it has the ability and the intent to hold and does not expect to be required to sell these securities until the recovery of their cost basis. The quarterly impairment assessment takes into account the changes in the credit quality of these debt securities since acquisition and the likelihood of a credit loss occurring over the life of the securities. In the event that a credit loss is expected to occur in the future, an allowance is established and a corresponding credit loss is recognized. Based on this analysis, as of June 30, 2024, the Company determined that no credit losses were expected to be realized on the tax-exempt municipal bond portfolio. The remainder of the portfolio consists of U.S. Treasury obligations, U.S. government agency securities, and U.S. government sponsored agency securities, all of which have the backing of the U.S. government, and are therefore not expected to incur credit losses.

Realized gains and losses on sales of securities and proceeds from sales of securities were as follows for the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2024	2023	2024	2023
	(in thousands)			
Gross realized gains on sales of securities	$ —	$ —	$ —	$ —
Gross realized losses on sales of securities	—	(1,871)	—	(1,871)
Net realized gains (losses) on sales of securities	**$ —**	**$ (1,871)**	**$ —**	**$ (1,871)**
Proceeds from sales of securities	$ —	$ 8,149	$ —	$ 8,149

There were no sales of securities during the three and six months ended June 30, 2024. During the three and six months ended June 30, 2023, there were $1.9 million in net losses in earnings resulting from the sale of $8.1 million of securities previously recorded with $1.7 million unrealized losses in accumulated other comprehensive income.

Securities available for sale with market values of $31.4 million and $24.8 million as of June 30, 2024 and December 31, 2023, respectively, were pledged to secure borrowings from the Federal Reserve Bank (“FRB”) Discount Window.

At June 30, 2024, there were no holdings of securities of any one issuer, other than the U.S. government and its agencies, in an amount greater than 10% of stockholders’ equity.

Note 3 — Loans

Loans Receivable

Loans consisted of the following as of the dates indicated:

	June 30, 2024	December 31, 2023
	(in thousands)	
Real estate loans:		
Commercial property		
Retail	$ 1,094,728	$ 1,107,360
Hospitality	754,600	740,519
Office	572,532	574,981
Other (1)	1,360,139	1,366,534
Total commercial property loans	3,781,999	3,789,394
Construction	106,506	100,345
Residential (2)	954,209	962,661
Total real estate loans	4,842,714	4,852,400
Commercial and industrial loans (3)	802,372	747,819
Equipment financing agreements	531,273	582,215
Loans receivable	**6,176,359**	**6,182,434**
Allowance for credit losses	(67,729)	(69,462)
Loans receivable, net	**$ 6,108,630**	**$ 6,112,972**

(1) *Includes mixed-use, multifamily, industrial, gas stations, faith-based facilities, and medical; all other property types represent less than one percent of total loans receivable.*

(2) *Includes $1.5 million and $1.9 million of home equity loans and lines, and $4.9 million and $4.5 million of personal loans at June 30, 2024 and December 31, 2023, respectively.*

(3) *At June 30, 2024 and December 31, 2023, Paycheck Protection Program loans were $0.1 million and $0.2 million, respectively.*

Accrued interest on loans was $20.0 million and $19.8 million at June 30, 2024 and December 31, 2023, respectively.

At June 30, 2024 and December 31, 2023, loans with carrying values of $2.41 billion and $2.36 billion, respectively, were pledged to secure advances from the FHLB.

Commercial and industrial loans	3,927	5,178
Total	**$ 9,757**	**$ 7,352**

Loan Quality Indicators

As part of the on-going monitoring of the quality of our loans portfolio, we utilize an internal loan grading system to identify credit risk and assign an appropriate grade (from 1 to 8) for each loan in our portfolio. Third-party loan reviews are conducted annually on a sample basis. Additional adjustments are made when determined to be necessary. The loan grade definitions are as follows:

Pass and Pass-Watch: Pass and Pass-Watch loans, grades (1-4), are in compliance with the Bank's credit policy and regulatory requirements, and do not exhibit any potential or defined weaknesses as defined under "Special Mention", "Substandard" or “Doubtful.” This category is the strongest level of the Bank’s loan grading system. It consists of all performing loans with no identified credit weaknesses. It includes cash and stock/security secured loans or other investment grade loans.

Special Mention: A Special Mention loan, grade (5), has potential weaknesses that deserve management’s close attention. If not corrected, these potential weaknesses may result in deterioration of the repayment of the debt and result in a Substandard classification. Loans that have significant actual, not potential, weaknesses are considered more severely classified.

Substandard: A Substandard loan, grade (6), has a well-defined weakness that jeopardizes the liquidation of the debt. A loan graded Substandard is not protected by the sound worth and paying capacity of the borrower, or of the value and type of collateral pledged. With a Substandard loan, there is a distinct possibility that the Bank will sustain some loss if the weaknesses or deficiencies are not corrected.

Doubtful: A Doubtful loan, grade (7), is one that has critical weaknesses that would make the collection or liquidation of the full amount due improbable. However, there may be pending events which may work to strengthen the loan, and therefore the amount or timing of a possible loss cannot be determined at the current time.

Loss: A loan classified as Loss, grade (8), is considered uncollectible and of such little value that their continuance as active bank assets is not warranted. This classification does not mean that the loan has absolutely no recovery or salvage value, but rather it is not practical or desirable to defer writing off this asset even though partial recovery may be possible in the future. Loans classified as Loss will be charged off in a timely manner.

Under regulatory guidance, loans graded special mention or worse are considered criticized loans, and loans graded substandard or worse are considered classified loans.

Residential	1	—	—	1
Total real estate loans	2,361	489	—	2,850
Commercial and industrial loans	5,213	92	—	5,305
Equipment financing agreements	570	6,749	—	7,319
Total	**$ 8,144**	**$ 7,330**	**$ —**	**$ 15,474**

The Company recognized $29,000 and $30,000 of interest income on nonaccrual loans for the three months ended June 30, 2024 and 2023, respectively. Interest income recognized on nonaccrual loans for the six months ended June 30, 2024 and 2023 was $38,000 and $134,000, respectively.

The following table details nonperforming assets as of the dates indicated:

	June 30, 2024	**December 31, 2023**
	(in thousands)	
Nonaccrual loans	$ 19,245	$ 15,474
Loans receivable 90 days or more past due and still accruing	—	—
Total nonperforming loans receivable	19,245	15,474
Other real estate owned (“OREO”)	772	117
Total nonperforming assets	**$ 20,017**	**$ 15,591**

OREO of $0.8 million and $0.1 million is included in prepaid expenses and other assets in the accompanying Consolidated Balance Sheets as of June 30, 2024 and December 31, 2023, respectively.

Loan Modifications

The following table presents loan modifications made to borrowers experiencing financial difficulty, by type of modification, with related amortized cost balances, respective percentage shares of the total class of loans, and the related financial effect, for the periods indicated:

	Term Extension		
	Amortized Cost Basis	% of Total Class of Loans	Financial Effect
	(in thousands)		
Three and six months ended June 30, 2024			
Commercial and industrial loans	$ 20,620	2.6%	1 loan with term extension of 6 years

The modified loan above is current at June 30, 2024.

No loans were modified to borrowers experiencing financial difficulty during the three and six months ended June 30, 2023.

Note 4 — Servicing Assets

The activity in servicing assets was as follows for the periods indicated:

	Three Months Ended June 30,	
	2024	2023
	(in thousands)	
Balance at beginning of period	$ 6,890	$ 7,542
Addition related to sale of SBA loans	482	399
Addition related to sale of residential loans	136	—
Amortization	(672)	(589)
Change in valuation allowance	—	—
Balance at end of period	**$ 6,836**	**$ 7,352**

	Six Months Ended June 30,	
	2024	2023
	(in thousands)	
Balance at beginning of period	$ 7,070	$ 7,176
Addition related to sale of SBA loans	996	1,014
Addition related to sale of residential loans	136	—
Amortization	(1,366)	(1,223)
Change in valuation allowance	—	385
Balance at end of period	**$ 6,836**	**$ 7,352**

At June 30, 2024 and December 31, 2023, we serviced loans sold to unaffiliated parties of $536.1 million and $539.6 million, respectively. These represented loans that were sold for which the Bank continues to provide servicing. These loans are maintained off-balance sheet and are not included in the loans receivable balance. At June 30, 2024, all of the loans serviced were SBA loans, except for $19.5 million of residential mortgage loans.

The Company recorded servicing fee income of $1.4 million and $1.3 million for the three months ended June 30, 2024 and 2023, respectively and $2.7 million and $2.6 million for the six months ended June 30, 2024 and 2023, respectively. Servicing fee income, net of the amortization of servicing assets, is included in other operating income in the consolidated statements of income. Amortization expense was $0.7 million and $0.6 million for the three months ended June 30, 2024 and 2023, respectively, and $1.4 million and $1.2 million for the six months ended June 30, 2024 and 2023, respectively.

The fair value of servicing rights was $8.1 million at June 30, 2024 and was determined using discount rates ranging from 10.1% to 25.5% and prepayment speeds ranging from 11.4% to 21.4%, depending on the stratification of the specific right. The fair value of servicing rights was $7.7 million at December 31, 2023 and was determined using discount rates ranging from 14.4% to 24.7% and prepayment speeds ranging from 12.2% to 19.7%, depending on the stratification of the specific right.

Note 5 — Income Taxes

The Company's income tax expense was $6.0 million and $8.5 million, representing an effective income tax rate of 29.3% and 29.3% for the three months ended June 30, 2024 and 2023, respectively. The Company's income tax expense was $12.5 million and $17.8 million, representing an effective income tax rate of 29.7% and 29.5% for the six months ended June 30, 2024 and 2023, respectively.

Management concluded that as of June 30, 2024 and December 31, 2023, a valuation allowance of $1.8 million and $1.9 million, respectively, was appropriate against certain state net operating loss carry forwards. For all other deferred tax assets, management believes it was more likely than not these deferred tax assets will be realized principally through future taxable income and reversal of existing taxable temporary differences. Net deferred tax assets were $35.9 million and $35.2 million as of June 30, 2024 and December 31, 2023, respectively.

As of June 30, 2024, the Company was subject to examination by various taxing authorities for its federal tax returns for the periods ended after December 31, 2019 and state tax returns for the periods ended after December 31, 2018. During the quarter ended June 30, 2024, there was no material change to the Company's uncertain tax positions. The Company does not expect its unrecognized tax positions to change significantly over the next twelve months.

Note 6 — Goodwill and other Intangibles

The goodwill of $11.0 million was recorded as a result of the acquisition of an equipment financing agreements portfolio in 2016. The core deposit intangible of $2.2 million was recognized for the core deposits acquired in a 2014 acquisition. The Company's intangible assets were as follows for the periods indicated:

		June 30, 2024			December 31, 2023		
	Amortization Period	**Gross Carrying Amount**	**Accumulated Amortization**	**Net Carrying Amount**	**Gross Carrying Amount**	**Accumulated Amortization**	**Net Carrying Amount**
				(in thousands)			
Core deposit intangible	10 years	$ 2,213	$ (2,196)	$ 17	$ 2,213	$ (2,145)	$ 68
Third-party originator's intangible	7 years	—	—	—	483	(483)	—
Goodwill	N/A	11,031	—	11,031	11,031	—	11,031
Total intangible assets		**$ 13,244**	**$ (2,196)**	**$ 11,048**	**$ 13,727**	**$ (2,628)**	**$ 11,099**

The Company performed an impairment analysis in the second quarter of 2024 and determined there was no impairment as of June 30, 2024. No triggering event occurred as of, or subsequent to June 30, 2024, that would require a reassessment of goodwill and other intangible assets.

Note 7 — Deposits

The scheduled maturities of time deposits are as follows for the periods indicated:

	Time Deposits More Than $250,000	Other Time Deposits	Total
		(in thousands)	
At June 30, 2024			
2024	$ 720,184	$ 959,204	$ 1,679,388
2025	282,055	483,676	765,731
2026	263	4,953	5,216
2027	—	955	955
2028 and thereafter	—	309	309
Total	**$ 1,002,502**	**$ 1,449,097**	**$ 2,451,599**
At December 31, 2023			
2024	$ 995,830	$ 1,444,509	$ 2,440,339
2025	3,928	6,205	10,133
2026	263	3,142	3,405
2027	—	572	572
2028 and thereafter	—	418	418
Total	**$ 1,000,021**	**$ 1,454,846**	**$ 2,454,867**

Accrued interest payable on deposits was $47.6 million and $39.2 million at June 30, 2024 and December 31, 2023, respectively. Total deposits reclassified to loans due to overdrafts at June 30, 2024 and December 31, 2023 were $1.4 million and $1.6 million, respectively.

Note 8 — Borrowings and Subordinated Debentures

At June 30, 2024, the Bank had $180.0 million of open advances and $112.5 million of term advances at the FHLB with a weighted average interest rate of 5.65% and 3.91%, respectively. At December 31, 2023, the Bank had $212.5 million of open advances and $112.5 million of term advances at the FHLB with a weighted average rate of 5.70% and 2.77%, respectively. Interest expense on borrowings for the six months ended June 30, 2024 and 2023 was $3.6 million and $4.0 million, respectively.

	June 30, 2024		December 31, 2023	
	Outstanding Balance	Weighted Average Rate	Outstanding Balance	Weighted Average Rate
		(dollars in thousands)		
Open advances	$ 180,000	5.65%	$ 212,500	5.70%
Advances due within 12 months	50,000	3.33	37,500	0.40
Advances due over 12 months through 24 months	50,000	4.25	12,500	1.90
Advances due over 24 months through 36 months	12,500	4.85	62,500	4.37
Outstanding advances	**$ 292,500**	**4.98%**	**$ 325,000**	**4.69%**

The following is financial data pertaining to FHLB advances:

	June 30, 2024	December 31, 2023
	(dollars in thousands)	
Weighted-average interest rate at end of period	4.98%	4.69%
Weighted-average interest rate during the period	4.30%	3.48%
Average balance of FHLB advances	$ 165,810	$ 197,390
Maximum amount outstanding at any month-end	$ 292,500	$ 450,000

The Bank maintains a secured credit facility with the FHLB, allowing the Bank to borrow on an overnight and term basis. The Bank had pledged $2.41 billion and $2.36 billion of loans at carrying values as collateral with the FHLB as of June 30, 2024 and

December 31, 2023, respectively. The remaining available borrowing capacity was $1.22 billion and $1.09 billion at June 30, 2024 and December 31, 2023, respectively.

The Bank also had securities pledged with the FRB with market values of $31.4 million and $24.8 million at June 30, 2024 and December 31, 2023, respectively. The pledged securities provided $29.4 million, and $23.2 million in available borrowing capacity through the Fed Discount Window as of June 30, 2024 and December 31, 2023, respectively.

On August 20, 2021, the Company issued $110.0 million of Fixed-to-Floating Subordinated Notes (“2031 Notes”) with a maturity date of September 1, 2031. The 2031 Notes have an initial fixed interest rate of 3.75% per annum, payable semiannually in arrears on March 1 and September 1 of each year, up to but excluding September 1, 2026. From and including September 1, 2026 and thereafter, the 2031 Notes will bear interest at a floating rate per annum equal to the Benchmark rate (which is expected to be the Three-Month Term SOFR) plus 310 basis points, payable quarterly in arrears on March 1, June 1, September 1 and December 1 of each year. If the then current three-month term SOFR rate is less than zero, the three-month SOFR will be deemed to be zero. Debt issuance cost was $2.1 million, which is being amortized through the 2031 Notes’ maturity date. At June 30, 2024 and December 31, 2023, the balance of the 2031 Notes included in the Company’s Consolidated Balance Sheet, net of issuance cost, was $108.4 million and $108.3 million, respectively.

The Company assumed Junior Subordinated Deferrable Interest Debentures (“Subordinated Debentures”) as a result of an acquisition in 2014 with an unpaid principal balance of $26.8 million and an estimated fair value of $18.5 million. The $8.3 million discount is being amortized to interest expense through the debentures’ maturity date of March 15, 2036. A trust was formed in 2005 which issued $26.0 million of Trust Preferred Securities (“TPS”) at a 6.26% fixed rate for the first five years and a variable rate of three-month LIBOR plus 140 basis points thereafter and invested the proceeds in the Subordinated Debentures. Beginning September 15, 2023, the variable rate on the TPS changed to three-month SOFR plus 166 basis points, representing the credit spread of 140 basis points and a 26 basis point adjustment to convert three-month LIBOR to three-month SOFR. The rate on the TPS at June 30, 2024 was 7.00%. The TPS will be subject to mandatory redemption if the Subordinated Debentures are repaid by the Company. Interest is payable quarterly, and the Company has the option to defer interest payments on the Subordinated Debentures from time to time for a period not to exceed five consecutive years. At June 30, 2024 and December 31, 2023, the balance of Subordinated Debentures included in the Company’s Consolidated Balance Sheets, net of discount of $4.9 million and $5.1 million, was $21.9 million and $21.7 million, respectively. The amortization of discount was $106,000 and $104,000 for the three months ended June 30, 2024 and 2023, respectively and $212,000 and $208,000 for the six months ended June 30, 2024 and 2023, respectively.

Note 9 — Earnings Per Share

Earnings per share (“EPS”) is calculated on both a basic and a diluted basis. Basic EPS excludes dilution and is computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted from the issuance of common stock that then shared in earnings, excluding common shares in treasury. For diluted EPS, the weighted-average number of common shares includes the impact of unvested performance stock units (“PSUs”) under the treasury method.

Unvested restricted stock containing rights to non-forfeitable dividends are considered participating securities prior to vesting and have been included in the earnings allocation in computing basic and diluted EPS under the two-class method.

The following table is a reconciliation of the components used to derive basic and diluted EPS for the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2024	2023	2024	2023
	(dollars in thousands, except per share amounts)			
Basic EPS				
Net income	$ 14,451	$ 20,620	$ 29,615	$ 42,612
Less: income allocated to unvested restricted stock	129	128	222	268
Income allocated to common shares	$ 14,322	$ 20,492	$ 29,393	$ 42,344
Weighted-average shares for basic EPS	30,055,913	30,324,264	30,089,341	30,320,281
Basic EPS (1)	**$ 0.48**	**$ 0.68**	**$ 0.98**	**$ 1.40**
Effect of dilutive stock options and unvested performance stock units	77,733	62,777	76,840	62,945
Diluted EPS				
Income allocated to common shares	$ 14,322	$ 20,492	$ 29,393	$ 42,344
Weighted-average shares for diluted EPS	30,133,646	30,387,041	30,166,181	30,383,226
Diluted EPS (1)	**$ 0.48**	**$ 0.67**	**$ 0.97**	**$ 1.39**

(1) *Per share amounts may not be able to be recalculated using net income and weighted-average shares presented above due to rounding.*

On a weighted-average basis, options to purchase 31,000 and 61,000 shares of common stock were excluded from the calculation of diluted earnings per share for the three and six months ended June 30, 2024 and 2023, respectively, because their effect would have been anti-dilutive. There were 91,732 anti-dilutive unvested PSUs outstanding for the three and six months ended June 30, 2024.

During the six months ended June 30, 2024, 88,598 PSUs were awarded to executive officers from the 2021 Equity Compensation Plan, with a fair value of $1.3 million on the grant date of April 1, 2024. During the six months ended June 30, 2023, the Company issued 53,696 PSUs to executive officers from the 2021 Equity Compensation Plan, with a fair value of $1.1 million on the grant date of March 10, 2023. These units have a three-year cliff vesting period and include dividend equivalent rights. Total PSUs outstanding as June 30, 2024 were 180,330 with an aggregate grant fair value of $3.4 million. Total PSUs outstanding as of June 30, 2023 were 158,295 with an aggregate grant fair value of $3.1 million.

Note 10 — Regulatory Matters

Federal bank regulatory agencies require bank holding companies and banks to maintain a minimum ratio of qualifying total capital to risk-weighted assets of 8.0% and a minimum ratio of Tier 1 capital to risk-weighted assets of 6.0%. In addition to the risk-based guidelines, federal bank regulatory agencies require bank holding companies and banks to maintain a minimum ratio of Tier 1 capital to average assets, referred to as the leverage ratio, of 4.0%.

In order for banks to be considered "well capitalized," federal bank regulatory agencies require a minimum ratio of qualifying total capital to risk-weighted assets of 10.0% and a minimum ratio of Tier 1 capital to risk-weighted assets of 8.0%. In addition to the risk-based guidelines, federal bank regulatory agencies require depository institutions to maintain a minimum ratio of Tier 1 capital to average assets, referred to as the leverage ratio, of 5.0%.

At June 30, 2024, the Bank's capital ratios exceeded the minimum requirements for the Bank to be considered "well capitalized" and the Company exceeded all of its applicable minimum regulatory capital ratio requirements.

A capital conservation buffer of 2.5% must be met to avoid limitations on the ability of the Bank and the Company to pay dividends, repurchase shares or pay discretionary bonuses. The Bank's capital conservation buffer was 6.51% and 6.27% and the Company's capital conservation buffer was 6.46% and 6.20% as of June 30, 2024 and December 31, 2023, respectively.

In March 2020, federal banking agencies announced an interim final rule to delay the impact on regulatory capital arising from the implementation of CECL. The interim final rule maintains the three-year transition option in the previous rule and provides banks the option to delay for two years an estimate of CECL's effect on regulatory capital, relative to the incurred loss methodology's effect on regulatory capital, followed by a three-year transition period (five-year transition option). The Company and the Bank adopted the capital transition relief over the permissible five-year period.

The capital ratios of Hanmi Financial and the Bank as of June 30, 2024 and December 31, 2023 were as follows:

	Actual		Minimum Regulatory Requirement		Minimum to Be Categorized as "Well Capitalized"	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
			(dollars in thousands)			
June 30, 2024						
Total capital (to risk-weighted assets):						
Hanmi Financial	$ 962,585	15.24%	$ 505,278	8.00%	N/A	N/A
Hanmi Bank	$ 916,437	14.51%	$ 505,135	8.00%	$ 631,419	10.00%
Tier 1 capital (to risk-weighted assets):						
Hanmi Financial	$ 786,761	12.46%	$ 378,958	6.00%	N/A	N/A
Hanmi Bank	$ 850,613	13.47%	$ 378,851	6.00%	$ 505,135	8.00%
Common equity Tier 1 capital (to risk-weighted assets)						
Hanmi Financial	$ 764,886	12.11%	$ 284,219	4.50%	N/A	N/A
Hanmi Bank	$ 850,613	13.47%	$ 284,139	4.50%	$ 410,422	6.50%
Tier 1 capital (to average assets):						
Hanmi Financial	$ 786,761	10.51%	$ 299,570	4.00%	N/A	N/A
Hanmi Bank	$ 850,613	11.41%	$ 298,076	4.00%	$ 372,595	5.00%
December 31, 2023

Hanmi Bank	$ 840,046	11.32%	$ 296,948	4.00%	$ 371,185	5.00%

Note 11 — Fair Value Measurements

Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, defines fair value, establishes a framework for measuring fair value including a three-level valuation hierarchy, and expands disclosures about fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The three-level fair value hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs that may be used to measure fair value are defined as follows:

- Level 1 - Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

- Level 2 - Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

- Level 3 - Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Fair value is used on a recurring basis for certain assets and liabilities in which fair value is the primary basis of accounting. Additionally, fair value is used on a non-recurring basis to evaluate assets or liabilities for impairment or for disclosure purposes.

We record securities available for sale at fair value on a recurring basis. Certain other assets, such as loans held for sale, impaired loans, OREO, and core deposit intangible, are recorded at fair value on a non-recurring basis. Non-recurring fair value measurements typically involve assets that are periodically evaluated for impairment and for which any impairment is recorded in the period in which the re-measurement is performed.

The following methods and assumptions were used to estimate the fair value of each class of financial instrument below:

Securities available for sale - The fair values of securities available for sale are determined by obtaining quoted prices on nationally recognized securities exchanges. If quoted prices are not available, fair values are measured using matrix pricing, which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities, or other model-based valuation techniques requiring observable inputs other than quoted prices such as yield curve, prepayment speeds, and default rates. Level 1 securities include U.S. Treasury securities that are traded on an active exchange or by dealers or brokers in active over-the-counter markets. The fair value of these securities is determined by quoted prices on an active exchange or over-the-counter market. Level 2 securities primarily include U.S. government agency and sponsored agency mortgage-backed securities, collateralized mortgage obligations and debt securities as well as municipal bonds in markets that are active. In determining the fair value of the securities categorized as Level 2, we obtain reports from nationally recognized broker-dealers detailing the fair value of each investment security held as of each reporting date. The broker-dealers use prices obtained from nationally recognized pricing services to value our fixed income securities. The fair value of the municipal securities is determined based on pricing data provided by nationally recognized pricing services. We review the prices obtained for reasonableness based on our understanding of the marketplace, and also consider any credit issues related to the bonds. As we have not made any adjustments to the market quotes provided to us and as they are based on observable market data, they have been categorized as Level 2 within the fair value hierarchy. Level 3 securities are instruments that are not traded in the market. As such, no observable market data for the instrument is available, which necessitates the use of significant unobservable inputs.

Derivatives – The fair values of derivatives are based on valuation models using observable market data as of the measurement date (Level 2). Our derivatives are traded in an over-the-counter market where quoted market prices are not always available. Therefore, the fair values of derivatives are determined using quantitative models that utilize multiple market inputs. The inputs will vary based on the type of derivative, but could include interest rates, prices and indices to generate continuous yield or pricing curves, prepayment rates, and volatility factors to value the position. The majority of market inputs are actively quoted and can be validated through external sources, including brokers, market transactions and third-party pricing services.

Loans held for sale - Loans held for sale includes the guaranteed portion of SBA 7(a) loans carried at the lower of cost or fair value. Management obtains quotes, bids or pricing indication sheets on all or part of the loans directly from the purchasing financial institutions. Premiums received or to be received on the quotes, bids or pricing indication sheets are indicative of the fact that cost is lower than fair value. At June 30, 2024 and December 31, 2023, the entire balance of loans held for sale was recorded at its cost. We record loans held for sale on a nonrecurring basis with Level 2 inputs.

Nonperforming loans – Nonaccrual loans receivable and loans 90-days past due and still accruing interest are considered nonperforming for reporting purposes. All nonperforming loans with a carrying balance over $250,000 are individually evaluated for the amount of impairment, if any. Nonperforming loans with a carrying balance of $250,000 or less are evaluated collectively. However, from time to time, nonrecurring fair value adjustments to collateral dependent nonperforming loans, for which repayment is expected to be obtained through the sale of the underlying collateral, are recorded based on either the current appraised value of the collateral, or management's judgment, that are then adjusted based on recent market trends. When the fair value of the collateral is less than the book value, a valuation allowance is established to carry the loan at the fair value of the collateral, and results in a Level 3 measurement.

OREO - Fair value of OREO is based primarily on third party appraisals, less costs to sell and result in a Level 3 classification of the inputs for determining fair value. Appraisals are required annually and may be updated more frequently as circumstances require and the fair value adjustments are made to OREO based on the updated appraised value of the property.

Servicing assets - On a quarterly basis, the Company utilizes a third party service to evaluate servicing assets related to loans sold to unaffiliated parties with servicing retained, and result in a Level 3 classification. Servicing assets are assessed for impairment or increased obligation based on fair value at each reporting date.

Other repossessed assets – Fair value of equipment from equipment financing agreements is based primarily on a third party valuation service, less costs to sell and result in a Level 3 classification of the inputs for determining fair value. Valuations are required at the time the asset is repossessed and may be subsequently updated periodically due to the Company's short-term possession of the asset prior to sale or as circumstances require and the fair value adjustments are made to the asset based on its value prior to sale.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

As of June 30, 2024 and December 31, 2023, assets and liabilities measured at fair value on a recurring basis are as follows:

	Level 1	Level 2	Level 3	
	Quoted Prices in Active Markets for Identical Assets	Significant Observable Inputs with No Active Market with Identical Characteristics	Significant Unobservable Inputs	Total Fair Value
		(in thousands)		
June 30, 2024

Total	**$**	**7,352**				
Other real estate owned	$	117	Market approach	Adjustments to market data	(10)% to 5% / (2)%	*(1)*
Repossessed personal property		1,305	Market approach	Adjustments to market data	N/A	*(3)*

(1) *Appraisal reports utilize a combination of valuation techniques including a market approach, where prices and other relevant information generated by market transactions involving similar or comparable properties are used to determine the appraised value. Appraisals may include an 'as is' and 'upon completion' valuation scenarios. Adjustments are routinely made in the appraisal process by third-party appraisers to adjust for differences between the comparable sales and income data. Adjustments also result from the consideration of relevant economic and demographic factors with the potential to affect property values. Also, prospective values are based on the market conditions which exist at the date of inspection combined with informed forecasts based on current trends in supply and demand for the property types under appraisal. Positive adjustments disclosed in this table represent increases to the sales comparison and negative adjustments represent decreases.*

(2) *Includes one loan secured by cash and business assets.*

(3) *The equipment is usually too small in value to use a professional appraisal service. The values are determined internally using a combination of auction values, vendor recommendations and sales comparisons depending on the equipment type. Some highly commoditized equipment, such as commercial trucks have services that provide industry values.*

ASC 825, *Financial Instruments*, requires disclosure of the fair value of financial assets and financial liabilities, including those financial assets and financial liabilities that are not measured and reported at fair value on a recurring basis or non-recurring basis. The methodologies for estimating the fair value of financial assets and financial liabilities that are measured on a recurring basis or non-recurring basis are discussed above.

The estimated fair value of financial instruments has been determined by using available market information and appropriate valuation methodologies. However, considerable judgment is required to interpret market data in order to develop estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts that we could realize in a current market exchange. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

Recognition and Measurement of Financial Assets and Financial Liabilities (Topic 825), among other provisions, requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes. Other than certain financial instruments for which we had concluded that the carrying amounts approximate fair value, the fair value estimates shown below were based on an exit price notion as of June 30, 2024, as required by ASU 2016-01. The financial instruments for which we had concluded that the carrying amounts approximate fair value include cash and due from banks, accrued interest receivable and payable, and noninterest-bearing deposits.

The estimated fair values of financial instruments were as follows:

	June 30, 2024			
	Carrying Amount	Fair Value		
		Level 1	Level 2	Level 3
	(in thousands)			
Financial assets:				
Cash and due from banks	$ 313,079	$ 313,079	$ —	$ —
Securities available for sale	877,638	99,996	777,642	—
Loans held for sale	10,467	—	10,639	—
Loans receivable, net of allowance for credit losses	6,108,630	—	—	6,023,684
Accrued interest receivable	23,958	23,958	—	—
Derivative financial instruments	6,216	—	6,216	—
Financial liabilities:				
Noninterest-bearing deposits	1,959,963	—	1,959,963	—
Interest-bearing deposits	4,369,377	—	—	4,364,613
Borrowings and subordinated debentures	422,818	—	291,145	133,245
Accrued interest payable	47,699	47,699	—	—
Derivative financial instruments	8,570	—	8,570	—

	December 31, 2023			
	Carrying Amount	Fair Value		
		Level 1	Level 2	Level 3
	(in thousands)			
Financial assets:				
Cash and due from banks	$ 302,324	$ 302,324	$ —	$ —
Securities available for sale	865,739	85,488	780,251	—
Loans held for sale	12,013	—	12,238	—
Loans receivable, net of allowance for credit losses	6,112,972	—	—	6,007,975
Accrued interest receivable	23,371	23,371	—	—
Derivative financial instruments	6,245	—	6,245	—
Financial liabilities:				
Noninterest-bearing deposits	2,003,596	—	2,003,596	—
Interest-bearing deposits	4,276,978	—	—	4,271,711
Borrowings and subordinated debentures	455,012	—	323,491	128,229
Accrued interest payable	39,306	39,306	—	—
Derivative financial instruments	5,920	—	5,920	—

The methods and assumptions used to estimate the fair value of each class of financial instruments for which it was practicable to estimate that value are explained below:

Cash and due from banks – The carrying amounts of cash and due from banks approximate fair value due to the short-term nature of these instruments (Level 1).

Securities – The fair value of securities, consisting of securities available for sale, is generally obtained from market bids for similar or identical securities, from independent securities brokers or dealers, or from other model-based valuation techniques described above (Level 1 and 2).

Loans held for sale – Loans held for sale, representing the guaranteed portion of SBA loans, are carried at the lower of aggregate cost or fair market value, as determined based upon quotes, bids or sales contract prices (Level 2).

Loans receivable, net of allowance for credit losses – The fair value of loans receivable is estimated based on the discounted cash flow approach. To estimate the fair value of the loans, certain loan characteristics such as account types, remaining terms, annual interest rates or coupons, interest types, past delinquencies, timing of principal and interest payments, current market rates, loan-to-value ratios, loss exposures, and remaining balances are considered. Additionally, the Company’s prior charge-off rates and loss ratios as well as various other assumptions relating to credit, interest, and prepayment risks are used as part of valuing the loan portfolio. Subsequently, the loans were individually evaluated by sorting and pooling them based on loan types, credit risk grades, and payment types. Consistent with the requirements of ASU 2016-01, the fair value of the Company's loans receivable is considered to be an exit price notion as of June 30, 2024 (Level 3).

The fair value of collateral dependent loans is estimated based on the net realizable fair value of the collateral or the observable market price of the most recent sale or quoted price from loans held for sale. The Company does not record loans at fair value on a recurring basis. Nonrecurring fair value adjustments to collateral dependent loans are recorded based on the current appraised value of the collateral (Level 3).

Accrued interest receivable – The carrying amount of accrued interest receivable approximates its fair value (Level 1).

Noninterest-bearing deposits – The fair value of noninterest-bearing deposits is the amount payable on demand at the reporting date (Level 2).

Interest-bearing deposits – The fair value of interest-bearing deposits, such as savings accounts, money market checking, and certificates of deposit, is estimated based on discounted cash flows. The cash flows for non-maturity deposits, including savings accounts and money market checking, are estimated based on their historical decaying experiences. The discount rate used for fair valuation is based on interest rates currently being offered by the Bank on comparable deposits as to amount and term (Level 3).

Borrowings and subordinated debentures – Borrowings consist of FHLB advances, subordinated debentures and other borrowings. Discounted cash flows based on current market rates for borrowings with similar remaining maturities are used to estimate the fair value of borrowings (Level 2 and 3).

Accrued interest payable – The carrying amount of accrued interest payable approximates its fair value (Level 1).

Note 12 — Off-Balance Sheet Commitments

The Bank is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. These instruments involve, to varying degrees, elements of credit and interest rate risk similar to the risk involved with on-balance sheet items.

The Bank's exposure to losses in the event of non-performance by the other party to commitments to extend credit and standby letters of credit is represented by the contractual notional amount of those instruments. The Bank uses the same credit policies in making commitments and conditional obligations as it does for extending loan facilities to customers. The Bank evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Bank upon extension of credit, was based on management's credit evaluation of the counterparty. Collateral held varies but may include accounts receivable, inventory, premises and equipment, and income-producing or borrower-occupied properties.

Some of the commitments to fund existing loans, lines of credit and letters of credit are expected to expire without being drawn upon. Therefore, the total commitments do not necessarily represent future cash requirements. As of June 30, 2024, the Bank was obligated on $120.0 million of letters of credit to the FHLB of San Francisco, which were being used as collateral for $120.0 million in public fund deposits from the State of California.

The following table shows the distribution of total loan commitments as of the dates indicated:

	June 30, 2024	December 31, 2023
	(in thousands)	
Unused commitments to extend credit	$ 795,391	$ 813,960
Standby letters of credit	87,186	83,725
Commercial letters of credit	23,806	33,140
Total commitments	**$ 906,383**	**$ 930,825**

The allowance for credit losses related to off-balance sheet items was maintained at a level believed to be sufficient to absorb current expected lifetime losses related to these unfunded credit facilities. The determination of the allowance adequacy was based on periodic evaluations of the unfunded credit facilities including an assessment of the probability of commitment usage, credit risk factors for loans outstanding to these same customers, and the terms and expiration dates of the unfunded credit facilities.

Activity in the allowance for credit losses related to off-balance sheet items was as follows for the periods indicated:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2024	2023	2024	2023
		(in thousands)		
Balance at beginning of period	$ 2,297	$ 3,066	$ 2,474	$ 3,114
Credit loss recovery	(287)	(591)	(464)	(639)
Balance at end of period	**$ 2,010**	**$ 2,475**	**$ 2,010**	**$ 2,475**

Note 13 — Leases

The Company enters into leases in the normal course of business primarily for bank branch offices, back-office operations locations, business development offices, information technology data centers and information technology equipment. The Company's leases have remaining terms ranging from one month to nine years and nine months, some of which include renewal or termination options to extend the lease for up to seven years.

The Company includes lease extension and termination options in the lease term if, after considering relevant economic factors, it is reasonably certain the Company will exercise the option. In addition, the Company has elected to account for any non-lease components in its real estate leases as part of the associated lease component. The Company has also elected not to recognize leases with original lease terms of 12 months or less (short-term leases) on the Company's balance sheet.

Leases are classified as operating or finance leases at the lease commencement date. Lease expense for operating leases and short-term leases is recognized on a straight-line basis over the term of the lease. Right-of-use assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Right-of-use assets and lease liabilities are recognized at the lease commencement date based on the estimated present value of the lease payments over the lease term.

As of June 30, 2024, the outstanding balances for our right-of-use asset and lease liability were $38.0 million and $42.3 million, respectively. The outstanding balances of the right-of-use asset and lease liability were $42.4 million and $46.4 million, respectively, as of December 31, 2023. The right-of-use asset is reported in prepaid expenses and other assets line item and lease liability is reported in accrued expenses and other liabilities line item on the Consolidated Balance Sheets.

In determining the discount rates, since most of our leases do not provide an implicit rate, we used our incremental borrowing rate provided by the FHLB of San Francisco based on the information available at the commencement date to calculate the present value of lease payments.

At June 30, 2024, future minimum rental commitments under these non-cancelable operating leases, with initial or remaining terms of one year or more, were as follows:

	Amount
	(in thousands)
2024	$ 8,448
2025	7,327
2026	6,599
2027	6,559
2028	5,566
Thereafter	12,627
Remaining lease commitments	47,126
Interest	(4,792)
Present value of lease liability	**$ 42,334**

Net lease expense recognized for the three months ended June 30, 2024 and 2023 was $2.5 million and $2.2 million, respectively. Net lease expense recognized for the six months ended June 30, 2024 and 2023 was $4.7 million and $4.2 million, respectively. This included operating lease costs of $2.4 million and $2.1 million for the three months ended June 30, 2024 and 2023, respectively. Operating lease costs were $4.6 million and $4.2 million for the six months ended June 30, 2024 and 2023, respectively. Sublease income for operating leases was immaterial for both the three and six months ended June 30, 2024 and 2023.

Weighted average remaining lease terms for the Company's operating leases were 6.58 years and 6.82 years as of June 30, 2024 and December 31, 2023, respectively. Weighted average discount rates used for the Company's operating leases were 3.21% and 2.98% as of June 30, 2024 and December 31, 2023, respectively.

Cash paid and included in cash flows from operating activities for amounts used in the measurement of the lease liability of the Company's operating leases was $2.0 million and $2.1 million for the three months ended June 30, 2024 and 2023, respectively, and $4.2 million and $4.1 million for the six months ended June 30, 2024 and 2023, respectively.

Note 14 — Liquidity

Hanmi Financial

As of June 30, 2024, Hanmi Financial had $7.5 million in cash on deposit with its bank subsidiary and $35.5 million of U.S. Treasury securities at fair value. As of December 31, 2023, the Company had $7.5 million in cash on deposit with its bank subsidiary and $32.4 million of U.S. Treasury securities at fair value. Management believes that Hanmi Financial, on a stand-alone basis, had adequate liquid assets to meet its current debt obligations.

Hanmi Bank

The principal objective of our liquidity management program is to maintain the Bank’s ability to meet the day-to-day cash flow requirements of its customers who wish either to withdraw funds or to draw upon credit facilities to meet their cash needs. Management believes that the Bank, on a stand-alone basis, has adequate liquid assets to meet its current obligations. The Bank’s primary funding source will continue to be deposits originating from its branch platform. The Bank’s wholesale funds historically consisted of FHLB advances, brokered deposits, as well as State of California time deposits. As of June 30, 2024 and December 31, 2023, the Bank had $292.5 million and $325.0 million of FHLB advances, and $28.2 million and $58.3 million of brokered deposits, respectively. As of June 30, 2024 and December 31, 2023, the Bank had $120.0 million of State of California time deposits.

We monitor the sources and uses of funds on a regular basis to maintain an acceptable liquidity position. The Bank's primary source of borrowings is the FHLB, from which the Bank is eligible to borrow up to 30% of its assets. As of June 30, 2024 and December 31, 2023, the total borrowing capacity available, based on pledged collateral was \$1.63 and \$1.54 billion, respectively. The remaining available borrowing capacity was \$1.22 billion and \$1.09 billion as of June 30, 2024 and December 31, 2023, respectively.

The amount that the FHLB is willing to advance differs based on the quality and character of qualifying collateral pledged by the Bank, and the FHLB may adjust the advance rates for qualifying collateral upwards or downwards from time to time. To the extent deposit renewals and deposit growth are not sufficient to fund maturing and withdrawable deposits, repay maturing borrowings, fund existing and future loans, equipment financing agreements and securities, and otherwise fund working capital needs and capital expenditures, the Bank may utilize the remaining borrowing capacity from its FHLB borrowing arrangement.

As a means of augmenting its liquidity, the Bank had an available borrowing source of \$29.4 million from the Federal Reserve Discount Window, to which the Bank pledged securities with a carrying value of \$38.4 million, with no borrowings as of June 30, 2024. The Bank also maintains a line of credit for repurchase agreements up to \$100.0 million. The Bank also had three unsecured federal funds lines of credit totaling \$115.0 million with no outstanding balances as of June 30, 2024 or December 31, 2023.

Note 15 — Derivatives and Hedging Activities

Risk Management Objective of Using Derivative

The Company is exposed to certain risks arising from both its business operations and economic conditions. The Company principally manages its exposures to a wide variety of business and operational risks through management of its core business activities. The Company manages economic risks, including interest rate, liquidity, and credit risk, primarily by managing the amount, sources, and duration of its assets and liabilities and through the use of derivative financial instruments. Specifically, the Company enters into derivative financial instruments to manage exposures that arise from business activities that result in the receipt or payment of future known and uncertain cash amounts, the value of which are determined by interest rates.

Derivatives Designated as Hedging Instruments - Cash Flow Hedges of Interest Rate Risk

The Company's objectives in using interest rate derivatives are to add stability to interest income and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps as part of its interest rate risk management strategy. Interest rate swaps designated as cash flow hedges involve the receipt of fixed-rate amounts from a counterparty in exchange for the Company making variable-rate payments over the life of the agreements without exchange of the underlying notional amount. Such derivatives were used to hedge the variable cash flows associated with existing variable-rate assets. During the fourth quarter of 2023, the Company entered into a \$100.0 million notional interest rate swap designated as a cash flow hedge, with an effective date of May 1, 2024 and a maturity date of May 1, 2026, to hedge a pool of Prime-indexed loans against falling rates. The principal balance of the loan pool designated for the Prime-indexed loans was \$142.7 million as of June 30, 2024. During the first quarter of 2024, the Company entered into a \$75.0 million notional interest rate swap designated as a cash flow hedge, with an effective date of May 1, 2024 and a maturity date of May 1, 2026, to hedge a pool of one-month SOFR-indexed loans against falling rates. The principal balance of the loan pool designated for the SOFR-indexed loans was \$103.2 million as of June 30, 2024.

For derivatives designated and that qualify as cash flow hedges of interest rate risk, the gain or loss on the derivative is recorded in accumulated other comprehensive income and subsequently reclassified into interest income in the same period(s) during which the hedged transaction affects earnings. Management evaluated the effectiveness of the Company's derivatives designated as cash flow hedges at inception and at the balance sheet date and determined they are effective. Amounts reported in accumulated other comprehensive income related to derivatives will be reclassified to interest income as interest payments are received on the Company's variable-rate asset. During the next 12 months, the Company estimates that an additional \$1.9 million will be reclassified as a decrease to interest income.

Derivatives Not Designated as Hedging Instruments

The Company also enters into interest rate swap agreements between the Company and its customers and other third-party counterparties. The Company enters into "back to back swap" arrangements whereby the Company executes interest rate swap agreements with its customers and acquires an offsetting swap position from a third-party counterparty. These derivative financial statements are accounted for at fair value, with changes in fair value recognized in the Company's Consolidated Statements of Income.

The table below presents the fair value of the Company's derivative financial instruments as well as their classification on the Balance Sheet as of June 30, 2024 and December 31, 2023.

No fee income was recognized from its derivative financial instruments for the three and six months ended June 30, 2024. The Company recognized $0.6 million of fee income for the six months ended June 30, 2023.

The table below presents a gross presentation, the effects of offsetting, and a net presentation of the Company's derivatives as of June 30, 2024 and December 31, 2023. The net amounts of derivative assets or liabilities can be reconciled to the tabular disclosure of fair value. The derivative assets are located within the prepaid and other assets line item on the Consolidated Balance Sheets and the derivative liabilities are located within the accrued expenses and other liabilities line item on the Consolidated Balance Sheets.

Offsetting of Derivative Assets

The Company has agreements with each of its derivative counterparties that contain a provision stating if the Company either defaults or is capable of being declared in default on any of its indebtedness, then the Company could also be declared in default on its derivative obligations. In addition, these agreements may also require the Company to post additional collateral should it fail to maintain its status as a well- or adequately- capitalized institution.

As of June 30, 2024 and December 31, 2023, the fair value of derivatives in a net liability position, which includes accrued interest but excludes any adjustment for nonperformance risk, related to these agreements was $0. As of June 30, 2024 and December 31, 2023, no collateral was provided related to these agreements.

Note 16 — Subsequent Events

Cash Dividend

On July 25, 2024, the Company announced that the Board of Directors of the Company declared a quarterly cash dividend of $0.25 per share to be paid on August 21, 2024 to stockholders of record as of the close of business on August 5, 2024.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following is management's discussion and analysis of our results of operations and financial condition as of and for the three and six months ended June 30, 2024. This analysis should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2023 (the "2023 Annual Report on Form 10-K") and with the unaudited consolidated financial statements and notes thereto set forth in this Quarterly Report on Form 10-Q for the period ended June 30, 2024 (this "Report").

Forward-Looking Statements

Some of the statements contained in this Report are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements in this Report other than statements of historical fact are "forward–looking statements" for purposes of federal and state securities laws, including, but not limited to, statements about anticipated future operating and financial performance, financial condition and liquidity, business strategies, regulatory and competitive outlook, investment and expenditure plans, capital and financing needs and availability, plans and objectives of management for future operations, developments regarding our capital and strategic plans and other similar forecasts and statements of expectation and statements of assumptions underlying any of the foregoing. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "could," "expects," "plans," "intends," "anticipates," "believes," "estimates," "predicts," "potential," or "continue," or the negative of such terms and other comparable terminology. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements.

Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, financial condition, levels of activity, performance or achievements to differ from those expressed or implied by the forward-looking statements. These factors include the following:

- a failure to maintain adequate levels of capital and liquidity to support our operations;
- general economic and business conditions internationally, nationally and in those areas in which we operate;
- volatility and deterioration in the credit and equity markets;
- changes in consumer spending, borrowing and savings habits;
- availability of capital from private and government sources;
- demographic changes;
- competition for loans and deposits and failure to attract or retain loans and deposits;
- inflation and fluctuations in interest rates that reduce our margins and yields, the fair value of financial instruments, the level of loan originations or prepayments on loans we have made and make, the level of loan sales and the cost we pay to retain and attract deposits and secure other types of funding;
- our ability to enter new markets successfully and capitalize on growth opportunities;
- the current or anticipated impact of military conflict, terrorism or other geopolitical events;
- the effect of potential future supervisory action against us or Hanmi Bank and our ability to address any issues raised in our regulatory exams;
- risks of natural disasters;
- legal proceedings and litigation brought against us;
- a failure in or breach of our operational or security systems or infrastructure, including cyberattacks;
- the failure to maintain current technologies;
- risks associated with Small Business Administration loans;
- failure to attract or retain key employees;
- our ability to access cost-effective funding;
- changes in liquidity, including the size and composition of our deposit portfolio and the percentage of uninsured deposits in the portfolio;
- fluctuations in real estate values;
- changes in accounting policies and practices;
- changes in governmental regulation, including, but not limited to, any increase in FDIC insurance premiums and changes in the monetary policies of the U.S. Treasury and the Board of Governors of the Federal Reserve System;
- the ability of Hanmi Bank to make distributions to Hanmi Financial Corporation, which is restricted by certain factors, including Hanmi Bank's retained earnings, net income, prior distributions made, and certain other financial considerations;
- strategic transactions we may enter into;
- the adequacy of and changes in the methodology for computing our allowance for credit losses;
- our credit quality and the effect of credit quality on our credit losses expense and allowance for credit losses;

- changes in the financial performance and/or condition of our borrowers and the ability of our borrowers to perform under the terms of their loans and other terms of credit agreements;
- our ability to control expenses; and
- cyber security and fraud risks against our information technology and those of our third-party providers and vendors.

For additional information concerning risks we face, see "Part II, Item 1A. Risk Factors" in this Report and "Item 1A. Risk Factors" in Part I of the 2023 Annual Report on Form 10-K. We undertake no obligation to update these forward-looking statements to reflect events or circumstances that occur after the date on which such statements were made, except as required by law.

Critical Accounting Policies

We have established various accounting policies that govern the application of GAAP in the preparation of our financial statements. Our significant accounting policies are described in the Notes to the consolidated financial statements in our 2023 Annual Report on Form 10-K. We had no significant changes in our accounting policies since the filing of our 2023 Annual Report on Form 10-K.

Certain accounting policies require us to make significant estimates and assumptions that have a material impact on the carrying value of certain assets and liabilities, and we consider these critical accounting policies. For a description of these critical accounting policies, see "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Policies" in our 2023 Annual Report on Form 10-K. Actual results could differ significantly from these estimates and assumptions, which could have a material impact on the carrying value of assets and liabilities at the balance sheet dates and our results of operations for the reporting periods. Management has discussed the development and selection of these critical accounting policies with the Audit Committee of the Company's Board of Directors.

Executive Overview

Financial results include the following:

	As of or for the			
	Three Months Ended June 30,		Six Months Ended June 30,	
	2024	2023	2024	2023
	(dollars in thousands, except per share data)			
Net income	$ 14,451	$ 20,620	$ 29,615	$ 42,612
Earnings per diluted share	$ 0.48	$ 0.67	$ 0.97	$ 1.39
Dividends per share	$ 0.25	$ 0.25	$ 0.50	$ 0.50
Return on average assets	0.77%	1.12%	0.79%	1.17%
Return on average stockholders' equity	7.50%	11.14%	7.70%	11.66%

Net income was $14.5 million, or $0.48 per diluted share, for the three months ended June 30, 2024 compared to $20.6 million, or $0.67 per diluted share, for the same period a year ago. The decrease in net income was driven by a $6.8 million decrease in net interest income, a $1.0 million increase in credit loss expense, and a $1.0 million increase in noninterest expense, offset by a $2.5 million decrease in income tax expense. Credit loss expense for the second quarter of 2024 was $1.0 million compared to a $0.1 million recovery for the second quarter of 2023. Credit loss expense for the second quarter of 2024 consisted of a $1.2 million provision for loan losses, offset by a $0.3 million recovery for off-balance sheet items. Credit loss recovery for the second quarter of 2023 included a $0.5 million provision for loan losses, offset by a $0.6 million recovery for off-balance sheet items.

For the six months ended June 30, 2024, net income was $29.6 million, or $0.97 per diluted share, compared to $42.6 million, or $1.39 per diluted share, for the same period a year ago. The decrease in net income was primarily driven by a decrease in net interest income of $14.0 million, and a $4.6 million increase in noninterest expense, offset by decreases in credit loss expense of $0.9 million and income tax expense of $5.3 million. Credit loss expense for the six months of 2024 was $1.2 million compared to a $2.1 million for the same period a year ago. Credit loss expense for the six months of 2024 consisted of a $1.7 million provision for loan losses, offset by a $0.5 million recovery for off-balance sheet items. Credit loss expense for the first six months of 2023 included a $2.7 million provision for loan losses, offset by a $0.6 million recovery for off-balance sheet items.

Other financial highlights include the following:

	June 30, 2024	December 31, 2023
	(in thousands)	
Loans receivable	$ 6,176,359	$ 6,182,434
Securities available for sale, at fair value	877,638	865,739
Total assets	7,586,347	7,570,341
Deposits	6,329,340	6,280,574
Borrowings	292,500	325,000
Total stockholders' equity	707,059	701,891

Results of Operations

Net Interest Income

Our primary source of revenue is net interest income, which is the difference between interest derived from earning assets, and interest paid on liabilities obtained to fund those assets. Our net interest income is affected by changes in the level and mix of interest-earning assets and interest-bearing liabilities, referred to as volume changes. Net interest income is also affected by changes in the yields earned on assets and rates paid on liabilities, referred to as rate changes. Interest rates charged on loans receivable are affected principally by changes to market interest rates, the demand for loans receivable, the supply of money available for lending purposes, and other competitive factors. Those factors are, in turn, affected by general economic conditions and other factors beyond our control, such as federal economic policies, the general supply of money in the economy, legislative tax policies, governmental budgetary matters, and the actions of the Federal Reserve.

The following table shows the average balance of assets, liabilities and stockholders' equity; the amount of interest income, on a tax-equivalent basis, and interest expense; the average yield or rate for each category of interest-earning assets and interest-bearing liabilities; and the net interest spread and the net interest margin for the periods indicated. All average balances are daily average balances.

(1) Loans receivable include loans held for sale and exclude the allowance for credit losses. Nonaccrual loans receivable are included in the average loans receivable balance.

(2) Securities average yield is calculated on a fully taxable equivalent basis using the current statutory federal tax rate of 21%.

(3) Represents interest expense on deposits as a percentage of all interest-bearing and noninterest-bearing deposits.

(4) Represents the average yield earned on interest-earning assets less the average rate paid on interest-bearing liabilities.
(5) Represents net interest income as a percentage of average interest-earning assets.

The table below shows changes in interest income and interest expense and the amounts attributable to variations in interest rates and volumes for the periods indicated. The variances attributable to simultaneous volume and rate changes have been allocated to the change due to volume and the change due to rate categories in proportion to the relationship of the absolute dollar amount attributable solely to the change in volume and to the change in rate.

	Three Months Ended June 30, 2024 vs June 30, 2023 Increases (Decreases) Due to Change In

Total interest expense	**2,718**	**11,974**	**14,692**
Change in net interest income	**$ (1,456)**	**$ (5,346)**	**$ (6,802)**

(1) Loans receivable include loans held for sale and exclude the allowance for credit losses. Nonaccrual loans receivable are included in the average loans receivable balance.
(2) Securities average yield is calculated on a fully taxable equivalent basis using the current statutory federal tax rate of 21%.

For the three months ended June 30, 2024 and 2023, net interest income was $48.6 million and $55.4 million, respectively. The net interest spread and net interest margin, on a taxable equivalent basis, for the quarter ended June 30, 2024, were 1.16% and 2.69%, respectively, compared to 1.79% and 3.11%, respectively, for the same period in 2023. Interest and dividend income increased $7.9 million, or 8.7%, to $98.7 million for the three months ended June 30, 2024 from $90.8 million for the same period in 2023, primarily due to higher average interest-earning asset yields, primarily related to loans, and an increase in the average balance of loans and securities. Interest expense increased $14.7 million, or 41.6%, to $50.0 million for the three months ended June 30, 2024 from $35.3 million for the same period in 2023 primarily due to increases in deposit rates and average deposit balances and, to a lesser extent, an increase in the cost of borrowings. The increases in average interest-earning asset yields and deposit and borrowing rates were due to the rising interest rate environment.

The average balance of interest earning assets increased $105.7 million, or 1.5%, to $7.27 billion for the three months ended June 30, 2024, from $7.16 billion for the three months ended June 30, 2023. The average balance of loans increased $148.4 million, or 2.5%, to $6.09 billion for the three months ended June 30, 2024, from $5.94 billion for the three months ended June 30, 2023. The average balance of securities increased $8.1 million, or 0.8%, to $979.7 million for the three months ended June 30, 2024, from $971.5 million for the three months ended June 30, 2023. The average balance of interest-bearing deposits at other banks decreased $50.8 million, or 22.0%, to $180.2 million for the three months ended June 30, 2024, from $231.0 million for the three months ended June 30, 2023.

The average yield on interest-earning assets, on a taxable equivalent basis, increased 37 basis points to 5.46% for the three months ended June 30, 2024, from 5.09% for the three months ended June 30, 2023. The average yield on loans increased to 5.99% for the three months ended June 30, 2024, from 5.64% for the three months ended June 30, 2023. The average yield on securities, on a taxable equivalent basis, increased to 2.17% for the three months ended June 30, 2024, from 1.73% for the three months ended June 30, 2023. The average yield on interest-bearing deposits in other banks increased 31 basis points to 5.16% for the three months ended June 30, 2024, from 4.85% for the three months ended June 30, 2023. The increased yields were primarily due to increases in market interest rates.

The average balance of interest-bearing liabilities increased $391.8 million, or 9.1%, to $4.68 billion for the three months ended June 30, 2024 compared with $4.29 billion for the three months ended June 30, 2023. The average balances of time deposits and money market and savings accounts increased $49.5 million and $382.6 million, respectively, offset partially by decreases in interest-bearing demand deposits and borrowings of $13.6 million and $27.3 million, respectively.

The average cost of interest-bearing liabilities was 4.30% and 3.30% for the three months ended June 30, 2024 and 2023, respectively. The average cost of interest-bearing deposits increased 102 basis points to 4.27% for the three months ended June 30, 2024, compared with 3.25% for the three months ended June 30, 2023. The average cost of time deposits increased 108 basis points to 4.78% for the three months ended June 30, 2024 compared with 3.70% for the three months ended June 30, 2023. The average cost of money market and savings accounts increased 106 basis points to 3.77% for the three months ended June 30, 2023 compared with 2.71% for the three months ended June 30, 2023.The average cost of subordinated debentures increased 13 basis points to 5.07% for the three months ended June 30, 2024 compared with 4.94% for the three months ended June 30, 2023. The average cost of borrowings increased 117 basis points to 4.50% for the three months ended June 30, 2024 compared with 3.33% for the three months ended June 30, 2023. The increased costs were primarily due to increases in market interest rates.

The following table shows the average balance of assets, liabilities and stockholders' equity; the amount of interest income, on a tax-equivalent basis, and interest expense; the average yield or rate for each category of interest-earning assets and interest-bearing liabilities; and the net interest spread and the net interest margin for the periods indicated. All average balances are daily average balances.

(1) Loans receivable include loans held for sale and exclude the allowance for credit losses. Nonaccrual loans receivable are included in the average loans receivable balance.

(2) Securities average yield is calculated on a fully taxable equivalent basis using the current statutory federal tax rate of 21%.

(3) Represents interest expense on deposits as a percentage of all interest-bearing and noninterest-bearing deposits.

(4) Represents the average yield earned on interest-earning assets less the average rate paid on interest-bearing liabilities.

(5) Represents net interest income as a percentage of average interest-earning assets.

The table below shows changes in interest income and interest expense and the amounts attributable to variations in interest rates and volumes for the periods indicated. The variances attributable to simultaneous volume and rate changes have been allocated to the change due to volume and the change due to rate categories in proportion to the relationship of the absolute dollar amount attributable solely to the change in volume and to the change in rate.

	Six Months Ended June 30, 2024 vs June 30, 2023 Increases (Decreases) Due to Change In		
	Volume	Rate	Total
		(in thousands)

Change in net interest income	**$ (1,327)**	**$ (12,675)**	**$ (14,002)**

For the six months ended June 30, 2024 and 2023, net interest income was $99.3 million and $113.3 million, respectively. The net interest spread and net interest margin, on a taxable equivalent basis, for the six months ended June 30, 2024, were 1.22% and 2.74%, respectively, compared to 1.94% and 3.20%, respectively, for the same period in 2023. Interest and dividend income increased $20.2 million, or 11.3%, to $198.3 million for the six months ended June 30, 2024 from $178.1 million for the same period in 2023, primarily due to higher average interest-earning asset yields and an increase in the average balance of loans. Interest expense increased $34.2 million, or 52.8%, to $99.0 million for the six months ended June 30, 2024 from $64.8 million for the same period in 2023, primarily due to increases in deposit rates and average deposit balances and, to a lesser extent, an increase in the cost of borrowings. The increases in average interest-earning asset yields and deposit and borrowing rates were due to the rising interest rate environment.

The average balance of interest earning assets increased $148.3 million, or 2.1%, to $7.30 billion for the six months ended June 30, 2024, from $7.15 billion for the six months ended June 30, 2023. The average balance of loans increased $170.9 million, or 2.9%, to $6.11 billion for the six months ended June 30, 2024, from $5.94 billion for the six months ended June 30, 2023. The average balance of securities decreased $1.5 million, or 0.2%, to $974.6 million for the six months ended June 30, 2024, from $976.1 million for the six months ended June 30, 2023. The average balance of interest-bearing deposits at other banks decreased $21.1 million, or 9.9%, to $191.0 million for the six months ended June 30, 2024, from $212.0 million for the six months ended June 30, 2023.

The average yield on interest-earning assets, on a taxable equivalent basis, increased 44 basis points to 5.46% for the six months ended June 30, 2024, from 5.02% for the six months ended June 30, 2023. The average yield on loans increased to 6.00% for the six months ended June 30, 2024, from 5.58% for the six months ended June 30, 2023. The average yield on securities, on a taxable equivalent basis, increased to 2.12% for the six months ended June 30, 2024, from 1.70% for the six months ended June 30, 2023. The average yield on interest-bearing deposits in other banks increased 56 basis points to 5.18% for the six months ended June 30, 2024, from 4.62% for the six months ended June 30, 2023. The increased yields were primarily due to increases in market interest rates.

The average balance of interest-bearing liabilities increased $454.4 million, or 10.7%, to $4.69 billion for the six months ended June 30, 2024 compared with $4.24 billion for the six months ended June 30, 2023. The average balances of time deposits and money market and savings accounts increased $166.3 million and $372.0 million, respectively, offset partially by decreases in interest-bearing demand deposits and borrowings of $18.3 million and $66.2 million, respectively.

The average cost of interest-bearing liabilities was 4.24% and 3.08% for the six months ended June 30, 2024 and 2023, respectively. The average cost of interest-bearing deposits increased 121 basis points to 4.21% for the six months ended June 30, 2024, compared with 3.00% for the six months ended June 30, 2023. The average cost of time deposits increased 120 basis points to 4.72% for the six months ended June 30, 2024 compared with 3.52% for the six months ended June 30, 2023. The average cost of money market and savings accounts increased 134 basis points to 3.72% for the six months ended June 30, 2023 compared with 2.38% for the six months ended June 30, 2023. The average cost of subordinated debentures increased 15 basis points to 5.06% for the six months ended June 30, 2024 compared with 4.91% for the six months ended June 30, 2023. The average cost of borrowings increased 82 basis points to 4.30% for the six months ended June 30, 2024 compared with 3.48% for the six months ended June 30, 2023. The increased costs were primarily due to increases in market interest rates.

Credit Loss Expense

For the second quarter of 2024, the Company recorded $1.0 million of credit loss expense, comprised of a $1.2 million provision for loan losses, partially offset by a $0.3 million recovery for off-balance sheet items. For the same period in 2023, the Company recorded $0.1 million of credit loss recovery, comprised of a $0.5 million provision for loan losses, offset by a $0.6 million recovery for off-balance sheet items.

For the six months ended June 30, 2024, the Company recorded $1.2 million of credit loss expense, comprised of a $1.7 million provision for loan losses, partially offset by a $0.5 million recovery for off-balance sheet items. For the same period in 2023, the Company recorded $2.1 million of credit loss expense, comprised of a $2.7 million provision for loan losses, partially offset by a $0.6 million recovery for off-balance sheet items.

See also "Allowance for Credit Losses and Allowance for Credit Losses Related to Off-Balance Sheet Items" for further details.

Noninterest Income

The following table sets forth the various components of noninterest income for the periods indicated:

	Three Months Ended June 30,		Increase (Decrease)	Increase (Decrease)
	2024	**2023**	**Amount**	**Percent**
		(in thousands)		
Service charges on deposit accounts	$ 2,429	$ 2,571	$ (142)	(5.52)%
Trade finance and other service charges and fees	1,277	1,173	104	8.87
Servicing income	796	825	(29)	(3.52)
Bank-owned life insurance income	638	271	367	135.42
All other operating income	908	1,811	(903)	(49.86)
Service charges, fees & other	**6,048**	**6,651**	**(603)**	**(9.07)**
Gain on sale of SBA loans	1,644	1,212	432	35.64
Gain on sale of mortgage loans	365	—	365	—
Net loss on sale of securities	—	(1,871)	1,871	(100.00)
Legal settlement	—	1,943	(1,943)	(100.00)
Total noninterest income	**$ 8,057**	**$ 7,935**	**$ 122**	**1.54%**

For the three months ended June 30, 2024, noninterest income was $8.1 million, an increase of $0.1 million, or 1.5%, compared to $7.9 million for the same period in 2023, due primarily to an increase in the gains on sales of SBA and mortgage loans and in bank-owned life insurance benefit income, offset partially by a decrease in all other operating income. The $0.9 million decrease in all other operating income was mainly attributed to a one-time $0.6 million increase in income related to equipment financing agreements in the second quarter in 2023. During the second quarter of 2024, the Company sold $19.5 million of residential loans and recognized a net gain of $0.4 million. In the second quarter of 2024 the Company also sold $23.5 million of SBA loans and recognized a net gain of $1.6 million. For the three months ended June 30, 2024, trade premiums on SBA loan sales increased 79 basis points, to 8.54%, from 7.75% for the three months ended June 30, 2023.

The following table sets forth the various components of noninterest income for the periods indicated:

	Six Months Ended June 30, 2024	Six Months Ended June 30, 2023	Increase (Decrease) Amount	Increase (Decrease) Percent
	(in thousands)			
Service charges on deposit accounts	$ 4,878	$ 5,151	$ (273)	(5.30)%
Trade finance and other service charges and fees	2,691	2,431	260	10.70
Servicing income	1,508	1,567	(59)	(3.77)
Bank-owned life insurance income	942	541	401	74.12
All other operating income	1,837	3,428	(1,591)	(46.41)
Service charges, fees & other	**11,856**	**13,118**	**(1,262)**	**(9.62)**
Gain on sale of SBA loans	3,126	3,081	45	1.46
Gain on sale of mortgage loans	808	—	808	100.00
Net loss on sale of securities	—	(1,871)	1,871	(100.00)
Legal settlement	—	1,943	(1,943)	(100.00)
Total noninterest income	**$ 15,790**	**$ 16,271**	**$ (481)**	**(2.96)%**

For the six months ended June 30, 2024, noninterest income was $15.8 million, a decrease of $0.5 million, or 3.0%, compared to $16.3 million for the same period in 2023, due primarily to a decrease in all other operating income, offset primarily by bank-owned life insurance benefit income in the second quarter of 2024, and gain on sale of mortgage loans. The $1.6 million decrease in all other operating income was mainly attributed to a one time $0.6 million increase in income related to equipment financing agreements in the second quarter in 2023, and $0.6 million in swap fee income in the six months ended June 30, 2023. During the first six months in 2024, the Company sold $49.2 million of residential loans and recognized a net gain of $0.8 million.

Noninterest Expense

The following table sets forth the components of noninterest expense for the periods indicated:

	Three Months Ended June 30, 2024	Three Months Ended June 30, 2023	Increase (Decrease) Amount	Increase (Decrease) Percent
	(in thousands)			
Salaries and employee benefits	$ 20,434	$ 20,365	$ 69	0.34%
Occupancy and equipment	4,607	4,500	107	2.38
Data processing	3,686	3,465	221	6.38
Professional fees	1,749	1,376	373	27.11
Supplies and communications	570	638	(68)	(10.66)
Advertising and promotion	669	748	(79)	(10.56)
All other operating expenses	2,992	3,243	(251)	(7.74)
Subtotal	**34,707**	**34,335**	**372**	**1.08**
Branch consolidation expense	301	—	301	100.00
Other real estate owned expense	6	4	2	50.00
Repossessed personal property expense (income)	262	(59)	321	(544.07)
Total noninterest expense	**$ 35,276**	**$ 34,280**	**$ 996**	**2.91%**

For the three months ended June 30, 2024, noninterest expense was $35.3 million, an increase of $1.0 million, or 2.9%, compared with $34.3 million for the same period in 2023. The increase was mainly attributed to a $0.4 million increase in professional fees, $0.3 million in branch consolidation expense due to the consolidation of three branches; two branches in Texas and one branch in California, and a $0.3 million increase in repossessed personal property expense. The increase in professional fees was mainly attributed to increases in legal and consulting expenses. Repossessed personal property expense increased due to a loss on sale of lease assets.

The following table sets forth the components of noninterest expense for the periods indicated:

	Six Months Ended June 30, 2024	Six Months Ended June 30, 2023	Increase (Decrease) Amount	Increase (Decrease) Percent
	(in thousands)			
Salaries and employee benefits	$ 42,019	$ 40,975	$ 1,044	2.55%
Occupancy and equipment	8,843	8,912	(69)	(0.77)
Data processing	7,237	6,718	519	7.73
Professional fees	3,642	2,710	932	34.39
Supplies and communications	1,172	1,314	(142)	(10.81)
Advertising and promotion	1,576	1,581	(5)	(0.32)
All other operating expenses	6,451	5,202	1,249	24.01
Subtotal	**70,940**	**67,412**	**3,528**	**5.23**
Branch consolidation expense	301	—	301	100.00
Other real estate owned expense (income)	28	(197)	225	(114.21)
Repossessed personal property expense (income)	451	(143)	594	(415.38)
Total noninterest expense	**$ 71,720**	**$ 67,072**	**$ 4,648**	**6.93%**

For the six months ended June 30, 2024, noninterest expense was $71.7 million, an increase of $4.6 million, or 6.9%, compared with $67.1 million for the same period in 2023. Salaries and employee benefits increased $1.0 million due to higher salaries, group insurance, and share-based compensation expense, offset primarily by capitalized labor costs associated with the Company's investment in a new loan origination system. Professional fees increased $0.9 million due to higher consulting and legal expenses. All other operating expenses increased $1.2 million mainly due to a $0.5 million increase in loan related expense and a $0.4 million SBA servicing asset adjustment. Repossessed personal property expense increased due to a $0.6 million loss on sale of lease assets.

Income Tax Expense

Income tax expense was $6.0 million and $8.5 million for the three months ended June 30, 2024 and 2023, respectively, representing an effective income tax rate of 29.3% for both periods. Income tax expense was $12.5 million and $17.8 million representing an effective income tax rate of 29.7% and 29.5% for the six months ended June 30, 2024 and 2023, respectively.

Financial Condition

Securities

As of June 30, 2024, our securities portfolio consisted of U.S. government agency and sponsored agency mortgage-backed securities, collateralized mortgage obligations and debt securities, tax-exempt municipal bonds and U.S. Treasury securities. Most of these securities carry fixed interest rates. Other than holdings of U.S. government agency and sponsored agency obligations, there were no securities of any one issuer exceeding 10% of stockholders’ equity as of June 30, 2024 or December 31, 2023.

Securities increased $11.9 million to $877.6 million at June 30, 2024 from $865.7 million at December 31, 2023, mainly attributed to $78.5 million in securities purchases, partially offset by $58.8 million in paydowns and maturities, and an increase in unrealized securities losses of $6.4 million during the six months ended June 30, 2024.

The following table summarizes the contractual maturity schedule for securities, at amortized cost, and their cost weighted average yield, which is calculated using amortized cost as the weight, as of June 30, 2024:

	Within One Year		After One Year But Within Five Years		After Five Years But Within Ten Years		After Ten Years		Total	
	Amount	**Yield**	**Amount**	**Yield**	**Amount**	**Yield**	**Amount**	**Yield**	**Amount**	**Yield**

Loans Receivable

As of June 30, 2024 and December 31, 2023, loans receivable (excluding loans held for sale), net of deferred loan fees and costs, discounts and allowance for credit losses, were $6.11 billion. For the six months ended June 30, 2024, there was $507.9 million in new loan production, which included $24.7 million in SBA loan purchases, offset partially by $333.0 million in loan sales and payoffs, and amortization and other reductions of $181.0 million. Loan production consisted of commercial real estate loans of $147.7 million, residential mortgages of $83.3 million, commercial and industrial loans of $109.8 million, equipment financing agreements of $81.7 million and SBA loans of $85.3 million.

The table below shows the maturity distribution of outstanding loans, before the allowance for credit losses as of June 30, 2024. In addition, the table shows the distribution of such loans between those with floating or variable interest rates and those with fixed or predetermined interest rates.

Industry

As of June 30, 2024, the loan portfolio included the following concentrations of loans to one type of industry that were greater than 10.0% of loans receivable outstanding:

	Balance as of June 30, 2024	Percentage of Loans Receivable Outstanding
	(in thousands)	
Lessor of nonresidential buildings	$ 1,705,755	27.6%
Hospitality	759,127	12.3%

Loan Quality Indicators

Loans 30 to 89 days past due and still accruing were $13.8 million at June 30, 2024, compared with $10.3 million at December 31, 2023, attributable to an increase of $1.4 million in past due residential loans and an increase of $2.6 million in equipment financing arrangements, offset by payoffs and other reductions.

At June 30, 2024 and December 31, 2023, there were no loans 90 days or more past due and still accruing interest.

Activity in criticized loans was as follows for the periods indicated:

	Special Mention	Classified
	(in thousands)	
Three months ended June 30, 2024		
Balance at beginning of period	$ 62,316	$ 23,669
Additions	1,969	13,993
Reductions	(27,363)	(3,716)
Ending balance	**$ 36,922**	**$ 33,946**
Three months ended June 30, 2023		
Balance at beginning of period	$ 64,340	$ 47,287
Additions	25,933	3,042
Reductions	(45,640)	(11,489)
Ending balance	**$ 44,633**	**$ 38,840**

	Special Mention	Classified
	(in thousands)	
Six months ended June 30, 2024		
Balance at beginning of period	$ 65,315	$ 31,367
Additions	2,522	16,571
Reductions	(30,915)	(13,992)
Ending balance	**$ 36,922**	**$ 33,946**
Six months ended June 30, 2023		
Balance at beginning of period	$ 79,013	$ 46,192
Additions	26,699	16,850
Reductions	(61,079)	(24,202)
Ending balance	**$ 44,633**	**$ 38,840**

Special mention loans were $36.9 million and $65.3 million at June 30, 2024 and December 31, 2023, respectively. The $28.4 million decrease included upgrades to pass loans of $19.4 million, downgrades to classified loans of $8.0 million, and paydowns and payoffs of $3.7 million, offset by downgrades from pass loans of $2.7 million. The upgrades to pass loans were primarily attributable to upgrades of two commercial and industrial loans totaling $13.6 million and one commercial real estate loan of $4.3 million during the second quarter.

Classified loans were $33.9 million and $31.4 million at June 30, 2024 and December 31, 2023, respectively. The $2.5 million increase was primarily driven by new downgrades to classified of $17.6 million, offset by payoffs of $8.3 million, charge-offs of $3.7 million, and paydowns and amortization of $3.1 million.

Nonperforming Assets

Nonperforming loans consist of nonaccrual loans and loans 90 days or more past due and still accruing interest. Nonperforming assets consist of nonperforming loans and OREO. Loans are placed on nonaccrual status when, in the opinion of management, the full timely collection of principal or interest is in doubt. Generally, the accrual of interest is discontinued when principal or interest payments become more than 90 days past due, unless we believe the loan is adequately collateralized and in the process of collection. However, in certain instances, we may place a particular loan on nonaccrual status earlier, depending upon the individual circumstances surrounding the loan's delinquency. When a loan is placed on nonaccrual status, previously accrued but unpaid interest is reversed against current income. Subsequent collections of cash are applied as principal reductions when received, except when the ultimate collectability of principal is probable, in which case interest payments are credited to income. Nonaccrual loans may be restored to accrual status when principal and interest become current and full repayment is expected, which generally occurs after sustained payment of six months. Interest income is recognized on the accrual basis for loans not meeting the criteria for nonaccrual. OREO consists of properties acquired by foreclosure or similar means.

Except for nonaccrual loans, management is not aware of any other loans as of June 30, 2024 for which known credit problems of the borrower would cause serious doubts as to the ability of such borrowers to comply with their present loan repayment terms, or any known events that would result in a loan being designated as nonperforming at some future date.

Nonaccrual loans were $19.2 million and $15.5 million as of June 30, 2024 and December 31, 2023, respectively, representing an increase of $3.7 million, or 23.7%. The increase in nonaccrual loans resulted from additions to nonperforming loans of $10.6 million, offset by payoffs, paydowns, and upgrades of $6.9 million. The additions to nonperforming loans consisted of equipment financing agreements of $2.6 million and two SBA loans for $0.7 million. As of June 30, 2024 and December 31, 2023, 1.61% and 1.25% of equipment financing agreements were on nonaccrual status, respectively. As of June 30, 2024 and December 31, 2023, all loans 90 days or more past due were classified as nonaccrual.

The $19.2 million of nonperforming loans as of June 30, 2024 had individually evaluated allowances of $6.8 million, compared to $15.5 million of nonperforming loans with individually evaluated allowances of $3.4 million as of December 31, 2023.

Nonperforming assets were $20.0 million at June 30, 2024, or 0.26% of total assets, compared to $15.6 million, or 0.21%, at December 31, 2023. Additionally, not included in nonperforming assets were repossessed personal property assets associated with equipment finance agreements of $1.2 million and $1.3 million at June 30, 2024 and December 31, 2023, respectively.

Individually Evaluated Loans

The Company reviews loans on an individual basis when the loan does not share similar risk characteristics with loan pools. Individually evaluated loans are measured for expected credit losses based on the present value of expected cash flows discounted at the effective interest rate, the observable market price, or the fair value of collateral.

Individually evaluated loans were $19.2 million and $15.5 million as of June 30, 2024 and December 31, 2023, respectively, representing an increase of $3.7 million, or 24.0%. Specific allowances associated with individually evaluated loans increased $3.4 million to $6.8 million as of June 30, 2024 compared with $3.4 million as of December 31, 2023, mainly attributed to a $1.9 million specific reserve allocation on a commercial and industrial loan in the health-care industry.

A borrower is experiencing financial difficulties when there is a probability that the borrower will be in payment default on any of its debt in the foreseeable future without the modification. The Company may modify loans to borrowers experiencing financial difficulties by providing principal forgiveness, a term extension, an other-than-insignificant payment delay, or an interest rate reduction.

The following table presents loan modifications made to borrowers experiencing financial difficulty by type of modification, with related amortized cost balances, respective percentage shares of the total class of loans, and the related financial effect, for the periods indicated:

	Term Extension		
	Amortized Cost Basis	**% of Total Class of Loans**	**Financial Effect**
	(in thousands)		
Three and six months ended June 30, 2024			
Commercial and industrial loans	$ 20,620	2.6%	1 loan with term extension of 6 years

The modified loan above was current at June 30, 2024.

No loans were modified to borrowers experiencing financial difficulty during the three and six months ended June 30, 2023.

Allowance for Credit Losses and Allowance for Credit Losses Related to Off-Balance Sheet Items

The Company's estimate of the allowance for credit losses at June 30, 2024 and December 31, 2023 reflected losses expected over the remaining contractual life of assets based on historical, current, and forward-looking information. The contractual term does not consider extensions, renewals or modifications.

Management selected three loss methodologies for the collective allowance estimation. At June 30, 2024, the Company used the discounted cash flow ("DCF") method to estimate allowances for credit losses for the commercial and industrial loan portfolio, the Probability of Default/Loss Given Default ("PD/LGD") method for the commercial real estate, construction and residential real estate portfolios, and the Weighted Average Remaining Maturity ("WARM") method to estimate expected credit losses for equipment financing agreements. Loans that do not share similar risk characteristics are individually evaluated for allowances.

For all loans utilizing the DCF method, the Company determined that four quarters represented a reasonable and supportable forecast period and reverted to a historical loss rate over twelve quarters on a straight-line basis. For each of these loan segments, the Company applied an annualized historical PD/LGD using all available historical periods. Since reasonable and supportable forecasts of economic conditions are embedded directly into the DCF model, qualitative adjustments are considered but were minimal.

For each of the loan segments identified above, the Company applied an annualized historical PD/LGD using all available historical periods. The PD/LGD method incorporates a forecast of economic conditions into loss estimates using a qualitative adjustment.

For loan pools utilizing the PD/LGD method, the Company used historical periods that included an economic downturn to derive historical losses for better alignment in the estimation of expected losses under the PD/LGD method. The Company relied on Frye-Jacobs modeled LGD rates for loan segments with insufficient historical loss data. The Frye-Jacobs model provides a means of applying an LGD rate in the event that limited to no loss data is available. The PD/LGD method incorporates a forecast into loss estimates using a qualitative adjustment.

The Company used the WARM method to estimate expected credit losses for the equipment financing agreements portfolio. The Company applied an expected loss ratio based on internal historical losses adjusted as appropriate for qualitative factors.

As of June 30, 2024 and December 31, 2023, the Company relied on the economic projections from Moody's to inform its loss driver forecasts over the four-quarter forecast period. For all loan pools, the Company utilizes and forecasts the national unemployment rate as the primary loss driver.

To adjust the historical and forecast periods to current conditions, the Company applies various qualitative factors derived from market, industry or business specific data, changes in the underlying portfolio composition, trends relating to credit quality, delinquent and nonperforming loans and adversely-rated equipment financing agreements, and reasonable and supportable forecasts of economic conditions.

The following table reflects our allocation of the allowance for credit losses by loan category as well as the amount of loans in each loan category, including related percentages:

	June 30, 2024				December 31, 2023			
	Allowance Amount	Percentage of Total Allowance	Total Loans	Percentage of Total Loans	Allowance Amount	Percentage of Total Allowance	Total Loans	Percentage of Total Loans
				(dollars in thousands)				
Real estate loans:								
Commercial property								
Retail	$ 10,126	15.0%	$ 1,094,728	17.7%	$ 10,264	14.8%	$ 1,107,360	17.9%

Commercial and industrial loans	10,563	15.6	802,372	13.0	10,257	14.8	747,819	12.1
Equipment financing agreements	15,013	22.2	531,273	8.6	13,706	19.7	582,215	9.4
Total	**$ 67,729**	**100.0%**	**$ 6,176,359**	**100.0%**	**$ 69,462**	**100.0%**	**$ 6,182,434**	**100.0%**

The following table sets forth certain ratios related to our allowance for credit losses at the dates presented:

	As of	
	June 30, 2024	December 31, 2023
	(dollars in thousands)	
Ratios:		
Allowance for credit losses to loans receivable	1.10%	1.12%
Nonaccrual loans to loans	0.31%	0.25%
Allowance for credit losses to nonaccrual loans	351.93%	448.89%
Balance:		
Nonaccrual loans at end of period	$ 19,245	$ 15,474
Nonperforming loans at end of period	$ 19,245	$ 15,474

The allowance for credit losses was $67.7 million and $69.5 million at June 30, 2024 and December 31, 2023, respectively. The allowance attributed to individually evaluated loans was $6.8 million and $3.4 million as of June 30, 2024 and December 31, 2023, respectively. The allowance attributed to collectively evaluated loans was $60.9 million and $66.1 million as of June 30, 2024 and December 31, 2023, respectively, and considered the impact of changes in macroeconomic assumptions, normalized interest rate forecasts for the subsequent four quarters, and a net reduction in specific qualitative factors allocated to criticized hospitality loans impacted by the pandemic.

As of June 30, 2024 and December 31, 2023, the allowance for credit losses related to off-balance sheet items, primarily unfunded loan commitments, was $2.0 million and $2.5 million, respectively. The Bank closely monitors the borrower's repayment capabilities, while funding existing commitments to ensure losses are minimized. Based on management's evaluation and analysis of portfolio credit quality and prevailing economic conditions, we believe these allowances were adequate for current expected lifetime losses in the loan portfolio and off-balance sheet exposure as of June 30, 2024.

The following table presents a summary of gross charge-offs and recoveries for the loan portfolio:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2024	2023	2024	2023
	(in thousands)			
Gross charge-offs	$ (2,338)	$ (2,707)	$ (4,461)	$ (4,944)
Gross recoveries	548	967	1,076	1,750
Net (charge-offs) recoveries	**$ (1,790)**	**$ (1,740)**	**$ (3,385)**	**$ (3,194)**

For the three months ended June 30, 2024, gross charge-offs decreased $0.4 million from the same period in 2023. Gross recoveries for the three months ended June 30, 2024 decreased $0.4 million from the same period in 2023. Gross charge-offs for the three months ended June 30, 2024 and 2023 primarily consisted of equipment financing agreements charge-offs of $2.2 million and $2.6 million, respectively.

For the six months ended June 30, 2024, gross charge-offs decreased $0.5 million from the same period in 2023. Gross recoveries for the six months ended June 30, 2024 decreased $0.7 million from the same period in 2023. Gross charge-offs for the six months ended June 30, 2024 and 2023 primarily consisted of equipment financing agreements charge-offs of $4.1 million and $4.2 million, respectively.

The following table presents a summary of net (charge-offs) recoveries for the loan portfolio:

	Three Months Ended			Six Months Ended		
	Average Loans	Net (Charge-Offs) Recoveries	Net (Charge-Offs) Recoveries to Average Loans *(1)*	Average Loans	Net (Charge-Offs) Recoveries	Net (Charge-Offs) Recoveries to Average Loans *(1)*
			(dollars in thousands)			
June 30, 2024						
Commercial real estate loans	$ 3,853,792	$ —	—%	$ 3,864,615	$ —	—%
Residential loans	959,072	(29)	(0.01)	965,708	18	0.00

(1) *Annualized*

Net loan charge-offs were $1.8 million, or 0.12% of average loans and $1.7 million, or 0.12% of average loans for the three months ended June 30, 2024 and 2023, respectively. Net loan charge-offs were $3.4 million, or 0.11% of average loans, and $3.2 million, or 0.11% of average loans, for the six months ended June 30, 2024 and 2023, respectively.

Deposits

The following table shows the composition of deposits by type as of the dates indicated:

	June 30, 2024		December 31, 2023	
	Balance	Percent	Balance	Percent
		(dollars in thousands)		
Demand – noninterest-bearing	$ 1,959,963	31.0%	$ 2,003,596	31.9%
Interest-bearing:				
Demand	82,981	1.3	87,452	1.4
Money market and savings	1,834,797	29.0	1,734,659	27.6
Uninsured amount of time deposits more than $250,000:				
Three months or less	74,459	1.2	186,321	3.0
Over three months through six months	302,767	4.8	201,085	3.2
Over six months through twelve months	276,048	4.4	222,683	3.6
Over twelve months	16,728	0.3	70,932	1.1
All other insured time deposits	1,781,597	28.0	1,773,846	28.2
Total deposits	**$ 6,329,340**	**100.0%**	**$ 6,280,574**	**100.0%**

Total deposits were $6.33 billion and $6.28 billion as of June 30, 2024 and December 31, 2023, respectively, representing an increase of $48.8 million, or 0.8%. The increase in deposits was primarily driven by a $100.1 million increase in money market and savings deposits and a $3.3 million increase in time deposits, partially offset by a $43.6 million decline in noninterest-bearing demand deposits. The changes in deposit composition were primarily due to the increase in deposit rates. At June 30, 2024, the loan-to-deposit ratio was 97.6% compared to 98.4% at December 31, 2023.

As of June 30, 2024, the aggregate amount of uninsured deposits (deposits in amounts greater than $250,000, which is the maximum amount for federal deposit insurance) was $2.58 billion. The aggregate amount of uninsured time deposits was $670.0 million. Other uninsured deposits, such as demand and money market and savings deposits were $1.91 billion. In addition, $1.16 billion of total uninsured deposits were in accounts with balances of $5.0 million or more at June 30, 2024. As of December 31, 2023, the aggregate amount of uninsured deposits was $2.52 billion. The aggregate amount of uninsured time deposits was $681.0 million.

Other uninsured deposits, such as demand, money market and savings deposits were $1.84 billion. In addition, $1.09 billion of total uninsured deposits were in accounts with balances of $5.0 million or more at December 31, 2023.

The Bank's wholesale funds historically consisted of FHLB advances, brokered deposits as well as State of California time deposits. As of June 30, 2024 and December 31, 2023, the Bank had $292.5 million and $325.0 million of FHLB advances, and $28.2 million and $58.3 million of brokered deposits, respectively, and $120.0 million of State of California time deposits, as of June 30, 2024 and December 31, 2023.

Borrowings and Subordinated Debentures

Borrowings mostly take the form of FHLB advances. At June 30, 2024 and December 31, 2023, FHLB advances were $292.5 million and $325.0 million, respectively. FHLB open advances were $180.0 million and $212.5 million at June 30, 2024 and December 31, 2023, respectively. For the same periods, term advances were $112.5 million and $112.5 million, respectively. Funds from deposit growth not used to fund loan production were used to pay off borrowings.

The weighted-average interest rate of all FHLB advances at June 30, 2024 and December 31, 2023 was 4.98% and 4.69%, respectively.

The FHLB maximum amount outstanding at any month end during each of the year-to-date periods ended June 30, 2024 and December 31, 2023 was $292.5 million and $450.0 million, respectively.

The following is a summary of contractual maturities of FHLB advances greater than twelve months:

	June 30, 2024		December 31, 2023	
FHLB of San Francisco	**Outstanding Balance**	**Weighted Average Rate**	**Outstanding Balance**	**Weighted Average Rate**
		(dollars in thousands)		
Advances due over 12 months through 24 months	$ 50,000	4.25%	$ 12,500	1.90%
Advances due over 24 months through 36 months	12,500	4.85	62,500	4.37
Outstanding advances over 12 months	**$ 62,500**	**4.37%**	**$ 75,000**	**3.96%**

Subordinated debentures were $130.3 million and $130.0 million as of June 30, 2024 and December 31, 2023, respectively. Subordinated debentures are comprised of fixed-to-floating subordinated notes of $108.4 million and $108.3 million as of June 30, 2024 and December 31, 2023, respectively, and junior subordinated deferrable interest debentures of $21.9 million and $21.7 million as of June 30, 2024 and December 31, 2023, respectively. See "Note 8 – Borrowings and Subordinated Debentures" to the consolidated financial statements for more details.

Stockholders' Equity

Stockholders' equity was $707.1 million and $701.9 million as of June 30, 2024 and December 31, 2023, respectively. Net income, net of $15.3 million of dividends paid, added $14.3 million to stockholders' equity for the period as did $1.7 million of share-based compensation, which was partially offset by a $4.3 million increase in unrealized after-tax losses on securities available for sale due to changes in interest rates, and a $1.8 million increase in unrealized after-tax losses on cash flow hedges. In addition, the Company repurchased 270,000 shares of common stock during the period at an average share price of $16.00 for a total cost of $4.3 million. At June 30, 2024, 1,330,000 shares remain under the Company's share repurchase program.

Interest Rate Risk Management

The spread between interest income on interest-earning assets and interest expense on interest-bearing liabilities is the principal component of net interest income, and interest rate changes substantially affect our financial performance. We emphasize capital protection through stable earnings. In order to achieve stable earnings, we prudently manage our assets and liabilities and closely monitor the percentage changes in net interest income and equity value in relation to limits established within our guidelines.

The Company performs simulation modeling to estimate the potential effects of interest rate changes. The following table summarizes one of the stress simulations performed to forecast the impact of changing interest rates on net interest income and the value of interest-earning assets and interest-bearing liabilities reflected on our balance sheet (i.e., an instantaneous parallel shift in the yield curve of the magnitude indicated below) as of June 30, 2024. The Company compares this stress simulation to policy limits, which specify the maximum tolerance level for net interest income exposure over a 1- to 12-month and a 13- to 24- month horizon, given the basis point adjustment in interest rates reflected below.

	Net Interest Income Simulation					
	1- to 12-Month Horizon			13- to 24-Month Horizon		
Change in Interest Rates (Basis Points)		Dollar Change	Percentage Change		Dollar Change	Percentage Change
			(dollars in thousands)			
300	$	(1,163)	(0.51%)	$	10,152	3.74%
200	$	(1,231)	(0.54%)	$	5,522	2.03%
100	$	(27)	(0.01%)	$	4,010	1.48%
-100	$	(1,190)	(0.52%)	$	(7,130)	(2.63%)
-200	$	(3,849)	(1.68%)	$	(17,876)	(6.59%)
-300	$	(6,800)	(2.97%)	$	(30,830)	(11.36%)

	Economic Value of Equity (EVE)		
Change in Interest Rates (Basis Points)		Dollar Change	Percentage Change
		(dollars in thousands)	
300	$	(16,030)	(2.27%)
200	$	(7,758)	(1.10%)
100	$	2,812	0.40%
-100	$	(19,226)	(2.73%)
-200	$	(57,958)	(8.21%)
-300	$	(113,030)	(16.02%)

The estimated sensitivity does not necessarily represent our forecast, and the results may not be indicative of actual changes to our net interest income. These estimates are based upon a number of assumptions, including the timing and magnitude of interest rate changes, prepayments on loans receivable and securities, pricing strategies on loans receivable and deposits, and replacement of asset and liability cash flows.

The key assumptions, based upon loans receivable, securities and deposits, are as follows:

Conditional prepayment rates*:	
Loans receivable	12%
Securities	6%
Deposit rate betas*:	
NOW, savings, money market demand	48%
Time deposits, retail and wholesale	75%

** Balance-weighted average*

While the assumptions used are based on current economic and local market conditions, there is no assurance as to the predictive nature of these conditions, including how customer preferences or competitor influences might change.

Capital Resources and Liquidity

Capital Resources

Historically, our primary source of capital has been the retention of operating earnings. In order to ensure adequate capital levels, the Board regularly assesses projected sources and uses of capital, expected loan growth, anticipated strategic actions (such as stock repurchases and dividends), and projected capital thresholds under adverse and severely adverse economic conditions. In addition, the Board considers the Company's access to capital from financial markets through the issuance of additional debt and securities, including common stock or notes, to meet its capital needs.

The Company's ability to pay dividends to stockholders depends in part upon dividends it receives from the Bank. California law restricts the amount available for cash dividends to the lesser of a bank's retained earnings or net income for its last three fiscal years (less any distributions to stockholders made during such period). Where the above test is not met, cash dividends may still be paid, with the prior approval of the Department of Financial Protection and Innovation ("DFPI"), in an amount not exceeding the greater of: (1) retained earnings of the Bank; (2) net income of the Bank for its last fiscal year; or (3) the net income of the Bank for its current fiscal year. The Company paid dividends of $15.3 million ($0.50 per share) for the six months ended June 30, 2024 and $30.5 million ($1.00 per share) for the year 2023. As of July 1, 2024, the Bank has the ability to pay dividends of approximately $147.5 million, after giving effect to the $0.25 dividend declared on July 25, 2024, for the third quarter of 2024, without the prior approval of the Commissioner of the DFPI.

At June 30, 2024, the Bank's total risk-based capital ratio of 14.51%, Tier 1 risk-based capital ratio of 13.47%, common equity Tier 1 capital ratio of 13.47% and Tier 1 leverage capital ratio of 11.41% placed the Bank in the "well capitalized" category pursuant to capital rules, which is defined as institutions with total risk-based capital ratio equal to or greater than 10.00%, Tier 1 risk-based capital ratio equal to or greater than 8.00%, common equity Tier 1 capital ratios equal to or greater than 6.50%, and Tier 1 leverage capital ratio equal to or greater than 5.00%.

At June 30, 2024, the Company's total risk-based capital ratio was 15.24%, Tier 1 risk-based capital ratio was 12.46%, common equity Tier 1 capital ratio was 12.11% and Tier 1 leverage capital ratio was 10.51%.

For a discussion of implemented changes to the capital adequacy framework prompted by Basel III and the Dodd- Frank Wall Street Reform and Consumer Protection Act, see our 2023 Annual Report on Form 10-K.

Liquidity

For a discussion of liquidity for the Company, see Note 14 - Liquidity included in the notes to unaudited consolidated financial statements in this Report and Note 22 – Liquidity in our 2023 Annual Report on Form 10-K.

Off-Balance Sheet Arrangements

For a discussion of off-balance sheet arrangements, see Note 12 - Off-Balance Sheet Commitments included in the notes to unaudited consolidated financial statements in this Report and "Item 1. Business - Off-Balance Sheet Commitments" in our 2023 Annual Report on Form 10-K.

Contractual Obligations

There have been no material changes to the contractual obligations described in our 2023 Annual Report on Form 10-K.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

For quantitative and qualitative disclosures regarding market risks, see “Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations - Interest Rate Risk Management” in this Report.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Management is responsible for the disclosure controls and procedures of the Corporation. Disclosure controls and procedures are controls and other procedures of an issuer that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods required by the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer is accumulated and communicated to the issuer’s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. As of the end of the period covered by this report, an evaluation was performed under the supervision and with the participation of the Corporation’s management, including the Chief Executive Officer (Principal Executive Officer) and Chief Financial Officer (Principal Financial Officer), of the effectiveness of the design and operation of the Corporation’s disclosure controls and procedures. Based on that evaluation, the Corporation’s Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures were effective as of June 30, 2024.

Changes in Internal Control over Financial Reporting

There were no changes in the Corporation's internal control over financial reporting (as defined in Rule 13a-15(f)) during the quarter ended June 30, 2024 that materially affected, or are reasonably likely to materially affect, the Corporation’s internal control over financial reporting.

Part II — Other Information

Item 1. Legal Proceedings

From time to time, Hanmi Financial and its subsidiaries are parties to litigation that arises in the ordinary course of business, such as claims to enforce liens, claims involving the origination and servicing of loans, and other issues related to the business of Hanmi Financial and its subsidiaries. In the opinion of management, the resolution of any such issues would not have a material adverse impact on the financial condition, results of operations, or liquidity of Hanmi Financial or its subsidiaries.

Item 1A. Risk Factors

There have been no material changes in risk factors applicable to the Corporation from those described in “Risk Factors” in Part I, Item 1A of the Corporation’s Annual Report on Form 10-K for the fiscal year ended December 31, 2023.

Item 2. Unregistered Sales of Equity Securities, Use of Proceeds, and Issuer Purchases of Equity Securities

On April 25, 2024, the Company announced that the Board of Directors has adopted a new stock repurchase program under which the Company may repurchase up to 5% of its outstanding shares, or approximately 1.5 million shares of its common stock. As of June 30, 2024, 1,330,000 shares remained available for future purchases under that stock repurchase program. The program has no scheduled expiration date and the Board of Directors has the right to suspend or discontinue the program at any time.

The following table represents information with respect to repurchases of common stock made by the Company during the three months ended June 30, 2024:

Purchase Date:	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Shares That May Yet Be Purchased Under the Program
April 1, 2024 - April 30, 2024	$ 15.77	20,000	1,480,000
May 1, 2024 - May 31, 2024	$ 16.09	150,000	1,330,000
June 1, 2024 - June 30, 2024	—	—	1,330,000
Total	**$ 16.05**	**170,000**	**1,330,000**

The Company acquired 1,874 shares from employees in connection with the satisfaction of employee tax withholding obligations incurred through the vesting of Company stock awards for the three months ended June 30, 2024. Shares withheld to cover income taxes upon the vesting of stock awards are repurchased pursuant to the terms of the applicable plan and not under the Company's repurchase program.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Securities Trading Plans of Directors and Executive Officers

During the three months ended June 30, 2024, none of our directors or executive officers adopted or terminated any contract, instruction or written plan for the purchase or sale of Hanmi securities that was intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) or any “non-Rule 10b5-1 trading arrangement.”

Item 6. Exhibits

Exhibit Number	Document
31.1	Certification of Principal Executive Officer pursuant to Rule 13a-14(a)/15d-14(a) of the Securities Exchange Act, as amended, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2	Certification of Principal Financial Officer pursuant to Rule 13a-14(a)/15d-14(a) of the Securities Exchange Act, as amended, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32.1	Certification of Chief Executive Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
32.2	Certification of Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
