Hanmi Reports Strong Financial Results for the Third Quarter 2014

Net Income Increases to \$13.3 Million, or \$0.41 Per Share

Completed Acquisition of Central Bancorp, Inc.

LOS ANGELES, Nov. 7, 2014 (GLOBE NEWSWIRE) -- Hanmi Financial Corporation (Nasdaq:HAFC) (or "Hanmi"), the holding company for Hanmi Bank (the "Bank"), today reported third quarter 2014 net income totaled \$13.3 million, or \$0.41 per diluted share. In the second quarter of 2014, Hanmi earned \$11.0 million, or \$0.35 per diluted share, and earned \$10.4 million, or \$0.33 per diluted share, for the third quarter of 2013.

In the first nine months of 2014, net income increased 18.0% to \$35.3 million, or \$1.10 per diluted share, compared to \$29.9 million, or \$0.95 per diluted share, in the first nine months of 2013. Earnings from continuing operations increased 20.1%, to \$35.8 million in the first nine months of 2014, from \$29.8 million in the first nine months of 2013.

Hanmi's acquisition of Central Bancorp, Inc. ("CBI"), the parent company of United Central Bank, was completed on August 31, 2014. The combined companies began operating as Hanmi Financial Corporation and Hanmi Bank, respectively, with banking operations conducted under the Hanmi Bank brand effective as of September 1, 2014. Third quarter 2014 financial results reflect two months of stand-alone operations of Hanmi and one month of combined operations following the completion of the acquisition. Nine-month 2014 financial results reflect eight months of stand-alone operations of Hanmi and one month of combined operations.

Third quarter financial results reflect the impact of the following significant items recorded in conjunction with the CBI acquisition:

- \$6.6 million bargain purchase gain
- \$3.4 million merger and integration costs

Mr. C. G. Kum, President and Chief Executive Officer, said, "I am very pleased with our third quarter results, which reflect strong growth and the initial benefits from our acquisition of Central Bancorp, Inc. Third quarter profitability exceeded expectations with net income up 20.1% from the prior quarter. We also achieved strong organic loan production for the legacy Hanmi Bank, which totaled \$169.9 million in the third quarter compared to \$115.2 million in the prior quarter. Asset quality continues to improve as both nonperforming loans and classified assets, excluding PCI loans, declined during the quarter. Furthermore, we are making good progress on our ongoing initiatives to increase operating efficiencies and reduce expenses."

Mr. Kum continued, "With the acquisition of Central Bancorp, Inc. complete, our integration efforts are proceeding as planned. We have identified several areas where we believe we can continue to streamline operations, including selected branch closures, which we expect will occur in early 2015. In addition, we recently announced the hiring of two experienced Regional Presidents who will be responsible for increasing market share and driving profitable growth in Texas and Illinois—two states where we now have a strong presence. We will look to broaden our market share from our core Korean American customer base to the wider Asian American and mainstream communities by providing our customers with the benefit of a larger product offering, improved lending capacity and enhanced customer service."

Acquisition Accounting Adjustments

As a result of the acquisition of CBI on August 31, 2014, Hanmi became the second largest Korean American bank in the United States with 49 banking offices and four loan production offices serving communities across California, Colorado, Illinois, New Jersey, New York, Texas, Virginia and Washington. The combined entity has the leading deposit market share among Korean American banks in Illinois, Texas and Virginia which complements Hanmi's substantial market share in California.

Results of Operations

Third quarter net interest income, before provision for credit losses, was \$30.7 million, up 9.6% from \$28.0 million in the second quarter of 2014, and up 7.7% from \$28.5 million for the third quarter of 2013. Interest and dividend income increased 9.5% from the preceding quarter and increased 8.0% from the third quarter a year ago, while interest expense increased 9.2% from the preceding quarter and 10.2% from the year ago quarter. Year-to-date, net interest income, before provision for credit losses, improved 6.6% to \$86.6 million compared to \$81.2 million for the first nine months of 2013.

Net interest margin fell 27 basis points to 3.67% for the third quarter of 2014 from the second quarter of 2014 and declined 61 basis points from a year ago. The compression in NIM primarily reflects a lower yield on securities and interest-bearing deposits acquired from CBI and the lower average yields on the new and renewing loans in the current low rate environment. For the first nine months of 2014, NIM was down 22 basis points totaling 3.86% compared to 4.08% for the first nine months of 2013. The following table details the asset yields, liability costs, spread and margin.

	Three Months Ended			Nine Months Ended	
	September 30,	June 30,	September 30,	September 30,	September 30,
	2014	2014	2013	2014	2013
Interest-earning assets	4.09%	4.38%	4.75%	4.31%	4.59%
Interest-bearing liabilities	0.66%	0.74%	0.77%	0.72%	0.81%
Net interest spread	3.43%	3.64%	3.98%	3.59%	3.78%
Net interest margin	3.67%	3.94%	4.28%	3.86%	4.08%

In the third quarter of 2014, net interest income, after provision for credit losses, totaled \$30.7 million, compared to \$31.9 million in the second quarter of 2014, and \$28.5 million in the third quarter a year ago. For the first nine months of 2014, net interest income after loan loss provision was \$93.8 million, compared to \$81.2 million in the first nine months of 2013. Hanmi did not record any loan loss provision in the third quarter of 2014 but recorded a negative loan loss provision totaling \$7.2 million in the first nine months of 2014 and no loan loss provisions in the prior year periods.

Noninterest income was \$14.3 million in the third quarter of 2014, compared to \$5.1 million in the preceding quarter and \$6.1 million in the year ago quarter. In the third quarter of 2014, in conjunction with the completion of the CBI acquisition, the company recorded a \$6.6 million bargain purchase gain. In addition, the third quarter 2014 gain on sales of the guaranteed portion of SBA loans increased to \$1.2 million from \$498,000 in the preceding quarter, and \$1.0 million in the third quarter a year ago, reflecting higher SBA loan production and premium. In the third quarter, SBA loan sales totaled \$14.3 million, compared to \$6.8 million in the preceding quarter and \$15.5 million in the third quarter a year ago. Other operating income increased to \$2.2 million in the third quarter of 2014, compared to \$253,000 in the preceding quarter and \$416,000 in the third quarter of 2013. The increase was due primarily to an \$819,000 recovery realized from an OREO property and an \$807,000 gain recognized from the early termination of CBI's retirement plan as of September 30, 2014.

Noninterest expense increased 44.2% to \$26.8 million in the third quarter of 2014, compared to \$18.6 million in the second quarter of 2014, and up 51.8% from \$17.6 million in the third quarter a year ago, primarily related to the acquisition of CBI. Salary and employee benefits costs increased 25.0% to \$12.8 million in the third quarter, compared to \$10.3 million in the preceding quarter and grew 41.2% from \$9.1 million in the third quarter of 2013. Merger and integration costs increased to \$3.4 million in the third quarter, compared to \$72,000 in the preceding quarter. There were no such costs in the third quarter of 2013. Professional fees increased to \$1.4 million in the third quarter, compared to \$652,000 in the preceding quarter and from \$599,000 in the third quarter of 2013.

The third quarter provision for income taxes from continuing operations was \$5.0 million, which is an effective tax rate of 27.25%, compared to \$6.9 million, or 37.37%, in the second quarter of 2014 and \$6.6 million, or 38.95%, in the third quarter a year ago. For the first nine months of 2014, the provision for income taxes from continuing operations was \$19.7 million, or 35.48%, compared to \$17.5 million, or 37.04%, in the first nine months of 2013. The sequential and year-over-year reduction in tax rate can be attributed to the adjustment for the bargain purchase gain (excluding this gain and transaction costs, an effective tax rate for the third quarter of 2014 would be 40.03%).

Balance Sheet

Assets increased \$1.1 billion during the third quarter of 2014 to \$4.2 billion due mainly to the acquisition of CBI on August 31, 2014. The investment portfolio increased 123.1% to \$1.1 billion at September 30, 2014, from \$506.0 million at June 30, 2014, and increased 194.6% from \$383.1 million a year ago.

Loans receivable, net of allowance for loan losses, increased 14.2% in the quarter and 25.0% year-over-year to \$2.6 billion at September 30, 2014, from \$2.3 billion at June 30, 2014 and \$2.1 billion a year ago. Average gross loans, net of deferred loan costs, increased to \$2.5 billion for the third quarter of 2014, up from \$2.3 billion for the preceding quarter and \$2.2 billion for the third quarter a year ago. For the first nine months of 2014, average gross loans, net of deferred loan costs, increased to \$2.4 billion from \$2.1 billion in the first nine months of 2013.

Third quarter new loans totaled \$169.9 million, consisting mainly of \$132.2 million of commercial real estate loans, \$16.0 million of C&I loans, and \$20.9 million of SBA loans. Loan commitments were \$201.8 million in the third quarter of 2014, which included loans approved but not funded. Excluding \$57.1 million loan purchases in the prior quarter, new loans increased \$54.7 million, or 47.4%, in the third quarter of 2014.

Average deposits were \$2.88 billion during the third quarter, up from \$2.52 billion for the preceding quarter and \$2.37 billion for the third quarter of 2013. Due mainly to the CBI acquisition, the cost of deposits declined to 0.45% in the third quarter from 0.52% a year ago. The period-end deposit mix is detailed in the table below.

	September 30,	June 30,	September 30,
	2014	2014	2013

At September 30, 2014, tangible common stockholders' equity was \$433.0 million, or 10.25% of tangible assets, compared to \$395.7 million, or 13.92%, of tangible assets, a year ago. Tangible book value per share was \$13.58, compared to \$13.38 three months earlier and \$12.46 at September 30, 2013. On October 10, 2014, Hanmi paid a cash dividend of \$0.07 per share, representing an aggregate dividend of \$6.7 million.

Asset Quality

Asset quality continued to improve with classified loans declining 2.5% in the quarter and down 47.5% year-over-year. Nonperforming loans ("NPLs") were down to \$24.0 million at the end of the quarter, compared to \$25.4 million at the end of the second quarter of 2014, but were up from \$22.8 million a year ago. Troubled debt restructurings ("TDRs") totaled \$26.4 million at September 30, 2014, and \$23.6 million at June 30, 2014. Of these TDRs, \$11.2 million were included in NPLs at September 30, 2014, compared to \$11.1 million at June 30, 2014. The following table shows NPLs in each category:

Other-real-estate-owned ("OREO") totaled \$24.8 million at the end of the third quarter, up significantly from \$1.7 million in the preceding quarter and \$290,000 a year ago. This increase in OREO is primarily attributable to an addition of \$22.3 million from the CBI acquisition. Classified loans (excluding PCI loans) declined to \$45.0 million, or 1.68% of gross loans, at September 30, 2014, from \$46.2 million, or 1.96% of gross loans, at June 30, 2014, and were down from \$85.8 million, or 3.97% of gross loans, a year ago. Decline in classified loans (excluding PCI loans) reflects \$3.5 million in loan upgrades, \$3.0 million in repayments and others, and \$1.9 million charge offs, offset by \$7.2 million new classified loans in the third quarter of 2014.

In the third quarter, recoveries of previously charged-off loans totaled \$663,000 compared to \$1.7 million in the preceding quarter and \$2.4 million in the third quarter of 2013. Gross charge-offs in the third quarter totaled \$1.4 million, compared to \$2.5 million in the preceding quarter and \$4.6 million a year ago. As a result, there was a net charge-offs of \$755,000 in the third quarter of 2014, compared to net charge-offs of \$806,000 in the preceding quarter and net charge-offs of \$2.2 million a year ago.

The allowance for loan losses totaled \$51.2 million, a coverage ratio of 1.91% of gross loans and 213.09% of NPLs as of September 30, 2014, compared to 2.67% of gross loans and 253.07% of NPLs as of September 30, 2013. No allowance for credit losses was established on the acquired CBI loans in the third quarter of 2014.

Non-GAAP Financial Measures

Tangible Common Equity to Tangible Assets Ratio

Tangible common equity to tangible assets ratio is supplemental financial information determined by a method other than in accordance with U.S. generally accepted accounting principles ("GAAP"). This non-GAAP measure is used by management in the analysis of Hanmi's capital strength. Tangible equity is calculated by subtracting goodwill and other intangible assets from stockholders' equity. Banking and financial institution regulators also exclude goodwill and other intangible assets from stockholders' equity when assessing the capital adequacy of a financial institution. Management believes the presentation of this financial measure excluding the impact of these items provides useful supplemental information that is essential to a proper understanding of the capital strength of Hanmi. This disclosure should not be viewed as a substitution for results determined in accordance with GAAP, nor is it necessarily comparable to non-GAAP performance measures that may be presented by other companies.

The following table reconciles this non-GAAP performance measure to the GAAP performance measure for the periods indicated:

Change in Accounting Principle

As of April 1, 2014, the Bank changed its method of accounting for investment in low-income housing tax credit, as required by *FASB ASU 2014-01, Accounting for Investment in Qualified Affordable Housing Projects*. Previously, the investment in low-income housing tax credit was accounted for under equity method.

Effective April 1, 2014, the Bank began recording amortization of the initial cost of the investment in proportion to the tax credits and other tax benefits received and recognizing the net investment performance in the income statement as a component of income tax expense (proportional amortization method). The Bank recorded this change in accounting principle in accordance with *ASU 2014-01* which requires retrospective application of the new accounting principle to all practicable prior accounting periods as if the principle had always been used. The accounting principle was retrospectively applied from the period beginning on January 1, 1998, and to each period thereafter. Net income in the three and nine months ended September 30, 2013 increased by \$135,000 and \$51,000, respectively, due to this change in accounting principle.
