- Repurchased approximately 1.3%, or 429,558 shares, of Hanmi's outstanding common stock under the previously announced 5.0% share repurchase program.

LOS ANGELES, Oct. 23, 2018 (GLOBE NEWSWIRE) -- Hanmi Financial Corporation (NASDAQ: HAFC, or "Hanmi"), the parent company of Hanmi Bank (the "Bank"), today reported net income for the 2018 third quarter of \$16.1 million, or \$0.50 per diluted share, compared with \$15.5 million, or \$0.48 per diluted share for the 2018 second quarter and \$14.9 million, or \$0.46 per diluted share for the 2017 third quarter.

C. G. Kum, Chief Executive Officer, said, "Hanmi delivered a solid performance with net income up 3% from the prior quarter and up almost 8% year-over-year. Careful expense management along with loan growth drove the improvement in the bottom line. During the quarter, we also repurchased 429,558 shares of Hanmi's common stock, or 1.3% of outstanding shares, under our recently announced stock repurchase program that authorized the buy-back of up to 5% of our shares outstanding. We expect, as market conditions permit, to complete the buy-back of the remaining shares under the authorized stock repurchase program by year end."

Mr. Kum concluded, "Over the past four years, Hanmi has successfully generated double-digit annual growth in high-quality loans. However, given the current competition for deposits and increasingly challenging environment to originate loans that are well-priced and meet our underwriting standards, we made a strategic decision during the quarter to slow loan growth for the second half of 2018 and to moderate our loan growth expectation for 2019 to a range of 5% to 7%. In addition, a review of the company's cost structure is being undertaken with the goal of reducing non-interest expenses by at least \$5 million, or approximately \$0.12 per share, in 2019. A key part of this activity will include a review of our technology platform and processes to improve operating efficiencies. We expect the improved cost structure and operating efficiencies will better position the company to pursue opportunistic growth in the future."

Net interest margin on a tax equivalent basis was 3.48% for the third quarter of 2018 compared with 3.60% for the second quarter of 2018 down 12 basis points primarily from the increase in the cost of interest-bearing deposits. The average earning asset yield (tax equivalent) was 4.60% for the third quarter of 2018 compared with 4.57% for the second quarter of 2018. The three basis point increase was primarily due to the increase in average yield for loans and leases receivable. The cost of interest-bearing liabilities was 1.66% for the third quarter of 2018 compared with 1.44% for the second quarter of 2018. The 22 basis point increase was primarily due to an 8.6% increase in average time deposits and a 28 basis point increase in the average rate paid on time deposits.

For the third quarter of 2018, the loan and lease loss provision was \$0.2 million compared with \$0.1 million for the preceding quarter reflecting the continued strong asset quality of the portfolio of loans and leases.

Third quarter noninterest income increased 4.5% to \$6.2 million from \$5.9 million for the second quarter, primarily due to a \$0.3 million increase in servicing income, \$0.2 million increase in service charges on deposit accounts and an increase of \$0.2 million in other operating income. This was partially offset by a \$0.3 million decrease in gain on sale of SBA loans. Gains on sales of SBA loans were \$1.1 million for the third quarter 2018, down from \$1.4 million for the preceding quarter reflecting lower trade premiums. The volume of SBA loans sold for the 2018 third quarter and second quarter were \$19.8 and \$19.1 million, respectively.

Noninterest expense has remained within a relatively tight range over the past year. During the third quarter, noninterest expense decreased 1.7% to \$29.0 million from \$29.5 million in the second quarter primarily due to a \$0.7 million decrease in other real estate owned, a \$0.4

million decrease in occupancy and equipment and a \$0.2 million decrease in advertising and promotion. This was partially offset by increases of \$0.4 million in professional fees and \$0.2 million in data processing. During the third quarter, certain expenses were recovered on a former OREO property. The increase in data processing was due to higher levels of activity and professional fees increased due to the timing of cosourced internal audits and credit reviews. Merger and integration costs related to the transaction to acquire SWNB Bancorp, Inc. ("SWNB"), which was terminated in September 2018, were \$0.5 million and \$0.4 million, in the third and second quarter, respectively. As a result of the decrease in noninterest expense, as well as the increase in revenues (noninterest income and net interest income), the efficiency ratio improved to 56.28% in the third quarter from 57.80% in the prior quarter.

The year-over-year decrease was a result of the lower Federal corporate tax rate beginning in 2018.

#### **Financial Position**

Total assets were \$5.49 billion at September 30, 2018, a 1.3% increase from \$5.42 billion at June 30, 2018. The increase in total assets was primarily due to an increase in loans and leases receivable.

Loans and leases receivable, before the allowance for loan and lease losses, were \$4.58 billion at September 30, 2018, up 0.9% from \$4.54 billion at the end of the prior quarter. Loans held for sale, representing the guaranteed portion of SBA loans, were \$4.5 million at September 30, 2018 compared with \$5.3 million at the end of the second quarter.

Loans and leases receivable, before the allowance for loan and lease losses, increased 9.2% from \$4.20 billion for the third quarter last year, primarily due to strong loan and lease production over the last twelve months.

New loan and lease production for the 2018 third quarter was \$238.0 million while payoffs, amortization and net line utilization was \$177.8 million compared with \$220.5 million and \$151.4 million, respectively, for the third quarter last year. Third quarter 2018 new loan and lease production was comprised of \$112.7 million of commercial real estate loans, \$32.7 million of commercial and industrial loans, \$25.4 million of SBA loans, \$64.3 million of commercial leases and \$2.9 million of consumer loans. Loan purchases for the 2018 third quarter were \$2.2 million, compared with \$88.2 million in third quarter last year. For the third quarter of 2018, commercial real estate loans as a percentage of

loans and leases receivable decreased to 71.5% compared with 74.1% for the same period last year.

Bonnie Lee, President and Chief Operating Officer, said, "Total new loan and lease production of \$238 million in the third quarter increased 8% year-over-year and was in-line with our new strategy to moderate loan and lease growth to single digits in the near-term given the current banking environment. During the quarter, we significantly reduced loan purchases, particularly purchases of residential consumer loans where spreads continue to compress. However, I was pleased with the strong contributions from our Commercial Equipment Leasing division, which comprised approximately 27% of new origination volume in the quarter and benefit our total portfolio with strong risk-adjusted yields."

Deposits increased 4.2% to \$4.61 billion at the end of the third quarter from \$4.43 billion at the end of the preceding quarter. Time deposits and money market and savings deposits led this growth with increases of 8.9% and 7.1%, respectively. The loan to deposit ratio at September 30, 2018 decreased to 99.3% from 102.6% in the second quarter.

Deposits increased 7.3% from \$4.30 billion in the third quarter last year, as total time deposits and noninterest-bearing demand deposits increased 25.4% and 1.6%, respectively, from a year ago.

# **Non-GAAP Financial Measures**

# **Tangible Common Equity to Tangible Assets Ratio**

Tangible common equity to tangible assets ratio is supplemental financial information determined by a method other than in accordance with

3.83%

<sup>(2)</sup> Amounts calculated on a fully taxable equivalent basis using the federal tax rate in effect for the periods presented.

U.S. generally accepted accounting principles ("GAAP"). This non-GAAP measure is used by management in the analysis of Hanmi's capital strength. Tangible equity is calculated by subtracting goodwill and other intangible assets from stockholders' equity. Banking and financial institution regulators also exclude goodwill and other intangible assets from stockholders' equity when assessing the capital adequacy of a financial institution. Management believes the presentation of this financial measure excluding the impact of these items provides useful supplemental information that is essential to a proper understanding of the capital strength of Hanmi. This disclosure should not be viewed as a substitution for results determined in accordance with GAAP, nor is it necessarily comparable to non-GAAP performance measures that may be presented by other companies.

The following table reconciles this non-GAAP performance measure to the GAAP performance measure for the periods indicated:
