Prudent capital management while driving

shareholder return through stable quarterly dividends and share repurchase program. Tangible book value per share (TBVPS)(1) increased to \$24.49 at the end of the first quarter.

Contributing to the increase was a \$10.4 million decrease in unrealized after-tax losses on securities available for sale, and a \$0.3 million decrease in unrealized after-tax losses on cash flow hedges, due to changes in interest rates during the first quarter of 2025.
